

Redhawk Appoints Jack H. L. Miller to Technical Advisory Board

09.07.2013 | [Marketwire](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Jul 9, 2013) - [Redhawk Resources Inc.](#) ("Redhawk" or the "Company") (**TSX:RDK**)(**OTCQX:RHWKF**)(**FRANKFURT:QF7**) is pleased to announce that Jack H. L. Miller has agreed to join the Company's Technical Advisory Board. Mr. Miller holds a B.A.Sc. and a M.A.Sc. in geological engineering and is a registered professional engineer. Jack has held various site operating and head office leadership roles in multiple base and precious metal operating companies. In these roles, Mr. Miller has been responsible for the entire mine development cycle; starting from exploration, through development and finally to operations. His most recent role, prior to retirement in 2010, was Chief Operating Officer for Quadra FNX Mining Ltd.

Stephen Barley, Executive Chairman of Redhawk stated: "We are extremely pleased to have Jack Miller join our Redhawk advisory group as we continue to broaden access to available expertise as the development of our Copper Creek project progresses. In addition to a strong technical background, Jack has excellent project and people management skills that have been proven in multiple operating and corporate environments. His experience and input will be a significant benefit to management at key decisions points along the development path."

About Redhawk

Redhawk is a Canadian-based resource exploration and development company with primary focus on the accelerated development of its advanced stage Copper Creek copper-molybdenum project in San Manuel, Arizona. The 100% owned Copper Creek property consists of approximately thirty-five square miles of contiguous patented and unpatented mining claims and state prospecting permits, located about 70 miles northeast of Tucson, Arizona and about 15 miles east of San Manuel. The property is in the prolific southwest US porphyry copper belt at the projected intersection of a major northwest belt of porphyry copper deposits or mines (Ray, Miami/Globe, Superior/Resolution, Johnson Camp) and a major east-northeast belt of porphyry deposits (San Manuel/Kalamazoo, Silver Bell, Lakeshore, Safford, Morenci). The property is within sight of the former BHP Kalamazoo/San Manuel copper smelter and mine and within 30 miles of an existing operating copper mill and smelter. The area is a mining friendly and politically secure location with excellent and readily accessible infrastructure including power, rail, water, roads and qualified consultants.

ON BEHALF OF THE BOARD

J. Stephen Barley, Executive Chairman

Cautionary Note Regarding Forward-Looking Information

Certain statements contained in this press release constitute forward-looking information within the meaning of applicable securities laws. These forward looking statements relate to future events or the Company's future performance, business prospects or opportunities. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "forecast", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe", "outlook" and similar expressions) are not statements of historical fact and may be forward looking information. Forward-looking information includes, but is not limited to, statements with respect to commercial mining operations, interpretation of drill results, conversion of mineral resources to proven and probable mineral reserves, analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Statements concerning mineral resource estimates may also be deemed to constitute forward-looking information to the extent that they involve estimates of the mineralization that will be encountered if the Copper Creek Project is developed. The Company believes that the expectations reflected in such forward looking information are reasonable, but no assurance can be given that these expectations will prove to be correct and such forward-looking information should not be unduly relied upon. These statements speak only as of the date of this press release. The Company does not intend, and does not assume any obligation, to update any forward-looking information except as required by law. Forward looking information involves risks and uncertainties which may cause actual results to be materially different from those expressed or implied by such forward looking information. Such risk and uncertainties relate to, among other things, results of exploration and development activities, the Company's historical experience with development-stage mining operations, uninsured risks, regulatory changes, defects in title, availability of materials and equipment, timeliness of government approvals, changes in commodity prices and, particularly, copper prices and

unanticipated environmental impacts on operations, as well as those factors discussed in the section entitled "Description of the Business - Risk Factors" in the Company's Annual Information Form for the year ended March 31, 2013, available on www.sedar.com.
