About the Weebigee Project

Goldeye's 100% owned Weebigee Project is located near Sandy Lake, 227 kilometres north of Red Lake in Northwestern Ontario, and is comprised of 343 claim units totaling 5,488 hectares. The project covers many of the gold and base metal showings in the Sandy Lake Greenstone Belt.

Goldeye's summer 2013 sampling program at the NW Arm claim block returned significant gold values (see press release dated September 5, 2013) including 43.5 g/t at the Bernadette gold showing, 34.1, 22.0, 20.9, and 18.3 g/t at the Knoll gold showing and 17.5 g/t at the Wavano gold showing.

A follow-up program of mapping and additional sampling at Weebigee is planned for mid-October, after Sandy Lake First Nation's traditional hunting week. The program will enable Goldeye to finalize drill targets and select collar locations for the winter drill program.
