

Northern Vertex Mining Corporation: Amends Warrant Expiry Date

18.03.2015 | [Marketwire](#)

VANCOUVER, March 18, 2015 - [Northern Vertex Mining Corp.](#) (TSX VENTURE:NEE) (the "Company") announces that it has, subject to regulatory approval, amended the expiry dates of 2,618,000 unexercised share purchase warrants.

Pursuant to the non-brokered unit private placement that closed on September 25, 2013, a total of 2,618,000 warrants were issued, expiring on March 25, 2015. The Company has extended the expiry date by an additional 12 months to March 25, 2016, with the exercise price per warrant remaining unchanged at \$0.90. In all other respects, the terms of the warrants will remain unchanged and in full force and effect, including that the expiry date of the warrants can be accelerated to 30 days following the date on which the Company gives notice to the holders of the warrants that its common shares have closed for 21 consecutive trading days at a price of \$1.40 or greater.

About Northern Vertex and the Moss Mine Project

[Northern Vertex Mining Corp.](#) is a Canadian based exploration and mining company focused on the reactivation of the Moss Mine Gold-Silver Project located in NW Arizona, USA where the Company has the right to earn-in to a 70% property interest through a Joint Venture with Patriot Gold Corp. The Moss Mine Project is located approximately seven miles due east of Bullhead City and is owned 100% by Patriot Gold. The Company has the right to earn a 70% interest in the project from Patriot Gold by completing an \$8.5 million investment over five years and a bankable feasibility study. Subsequent to the earn-in, financing of the project will be on a proportional basis. The Company has addressed the investment requirement of the earn-in and is in the process of completing the required feasibility study. The Company intends to submit the feasibility study to Patriot towards the end of Q2, 2015, after which the 70:30 joint venture is formed. Patriot will be obligated to contribute its 30% of all expenditures going forward.

The Moss Mine Gold-Silver Project is an epithermal, brecciated, low sulphidation quartz-calcite vein and stockwork system which extends over a strike length of 1,400 meters and has been drill tested to depths of 370 meters below surface. It is a potential heap leach, open pit project being advanced under a three-phase business plan, specifically designed to ensure that technical, economic, permitting and funding requirements are met prior to each phase proceeding. The Company's management comprises an experienced management team with a strong background in all aspects of acquisition, exploration, development, operations and financing of mining projects worldwide. The Company is focused on working effectively and respectfully with our stakeholders in the vicinity of the historical Moss Mine and enhancing the capacity of the local communities in the area.
