

CALGARY, ALBERTA--(Marketwired - Jun 9, 2015) - At the request of IIROC, [Titanium Corporation Inc.](#) (the "Company") (TSX VENTURE:TIC) wishes to confirm that the Company's management is unaware of any material change in the Company's operations that would account for the recent increase in market activity.

#### *About Titanium Corporation Inc.*

*Titanium Corporation's CVW&#8482; technology provides sustainable solutions to reduce the environmental footprint of the oil sands industry. The Company's technology reduces the environmental impact of oil sands tailings while economically recovering valuable products that would otherwise be lost. CVW&#8482; recovers bitumen, solvents and minerals from tailings, preventing these commodities from entering tailings ponds and the atmosphere: volatile organic compound and greenhouse gas emissions are materially reduced; hot tailings water is improved in quality for recycling; and residual tailings can be thickened more readily. A new minerals industry will be created commencing with the production and export of zircon, an essential ingredient in ceramics. The Company's shares trade on the TSX Venture Exchange under the symbol "TIC". For more information, please visit the Company's website at [www.titaniumcorporation.com](http://www.titaniumcorporation.com).*

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
