

TORONTO, ONTARIO--(Marketwired - Dec. 3, 2015) - [Sage Gold Inc.](#) (the "Company") (TSX VENTURE:SGX) is pleased to announce that, further its press release dated November 17, 2015, it has completed the first tranche closing of its non-brokered private placement (the "Offering") of units (the "Units"), subject to final approval from the TSX Venture Exchange. The Company issued 1,000,000 Units at a price of \$0.05 per Unit for gross proceeds of \$50,000. Each Unit consisted of one common share in the capital stock of the Company (the "Shares") and Share purchase warrant (a "Warrant"). Each Warrant shall entitle the holder to purchase one Share at a price of \$0.10 for a period of 36 months following the closing date of the Offering. Eligible finders pursuant to the Offering received a nominal cash fee of \$1,000 and finder warrants to purchase 40,000 shares of the Company at a strike price of \$0.10 until December 3, 2018.

Two (2) insiders of the Company participated in the Offering, thereby making the Offering a "related party transaction" as defined under *Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions* ("MI 61-101"). Mr. Patrick Mars, Chairman and a director of the Company and Mr. Nigel Lees, President, Chief Executive Officer and a director of the Company, purchased, in the aggregate, 400,000 Units pursuant to the Offering.

Mr. Mars purchased 100,000 Units and will own or control 952,555 Shares or approximately 5.2% of the total Shares issued and outstanding after the completion of the Offering. Mr. Lees purchased 300,000 Units and will own or control 1,225,881 Shares or approximately 6.7% of the total Shares issued and outstanding after the completion of the Offering. The Offering was exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as the Company is not listed under a specified market (as set out in section 5.5(b) of 61-101) and the fair market value of the Shares issued to, nor the consideration paid by, Messrs. Mars and Lees exceeded 25% of the Company's market capitalization. No new insiders were created, nor has any change of control occurred, as a result of the Offering.

The securities issued pursuant to the Offering will be subject to a four (4) month and one (1) day statutory hold period. The Company intends to use the net proceeds from the first tranche of the Offering for general working capital purposes.

The Company is also pleased to announce the appointment of David McDonald, CPA, CA, as Chief Financial Officer (CFO) effective immediately. Mr. McDonald has served and continues to serve as CFO of several other junior mining companies. Rob Ryan, the outgoing CFO, will be devoting his full time to manage a private business in which he is a major shareholder. The Company wishes to welcome David and thank Rob for his contribution over the past two years.

CAUTIONARY STATEMENT: Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. This news release may contain forward looking information and the Company cautions readers that forward looking information is based on certain assumptions and risk factors that could cause actual results to differ materially from the expectations of the Company included in this news release. This news release includes certain "forward-looking statements", which often, but not always, can be identified by the use of words such as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". These statements are based on information currently available to the Company and the Company provides no assurance that actual results will meet management's expectations. Forward-looking statements include estimates and statements with respect to the Company's future plans, objectives or goals, to the effect that the Company or management expects a stated condition or result to occur. Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results relating to, among other things, results of exploration, metallurgical processing, project development, reclamation and capital costs of the Company's mineral properties, and the Company's financial condition and prospects, could differ materially from those currently anticipated in such statements for many reasons such as, but are not limited to: failure to identify mineral resources; failure to convert estimated mineral resources to reserves; the preliminary nature of metallurgical test results; delays in obtaining or failures to obtain required governmental, environmental or other project approvals; political risks; uncertainties relating to the availability and costs of financing needed in the future; changes in equity markets, inflation, changes in exchange rates; fluctuations in commodity prices; delays in the development of projects; capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry; and those risks set out in the Company's public documents filed on SEDAR. This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. These and other factors should be considered carefully and readers should not place undue reliance on the Company's forward-looking statements. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
