

Uranium Participation Corp - Announces Normal Course Issuer Bid

11.01.2016 | [Marketwire](#)

TORONTO, Jan. 11, 2016 - [Uranium Participation Corp.](#) (TSX:U) ("UPC" or the "Corporation") announced today that it intends, subject to regulatory approval, including the approval of the Toronto Stock Exchange (the "TSX"), to initiate a normal course issuer bid (the "Bid") to acquire certain of its common shares (the "Shares") through the facilities of the TSX.

Purchases made pursuant to the Bid will not exceed 10,192,641 Shares, which, at the date hereof, represent approximately 10% of the public float. As of January 8, 2016, 115,648,713 Shares of the Corporation are outstanding. The actual number of Shares which may be purchased and the timing of such purchases will be determined by the Corporation. Decisions regarding purchases will be based on market conditions, share price, best use of available cash, and other factors.

The purpose for the Bid is to provide UPC with a mechanism to decrease the potential spread between the net asset value per Share and the market price of the Shares.

Following receipt of regulatory approval, purchases will be made by the Corporation in accordance with TSX requirements. Shares will be purchased through the facilities of the TSX or other alternative Canadian marketplaces at prevailing market prices at the time of purchase. In accordance with the applicable TSX rules, the maximum amount of daily purchases may not exceed 25% of the average daily trading volume of the Shares (other than block purchase exemptions). All purchased Shares will be cancelled.

The Corporation completed a normal course issuer bid in November, 2015 through the facilities of the TSX pursuant to which it acquired 1,224,200 Shares at an average price of approximately \$5.31 per Share. All purchased Shares were cancelled.
