

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Apr 26, 2016) - Kaizen Discovery (TSX VENTURE:KZD) today announced that the company has filed an updated National Instrument 43-101 technical report for the Pinaya Copper-Gold Project in Peru.

The updated technical report was independently prepared jointly by Brian Cole, P.Geol and Ronald G. Simpson, P.Geol (Geosim Services Inc.), in accordance with the 2014 CIM definition standards, incorporated by reference into Canadian National Instrument 43-101 - Standards of Disclosure for Mineral Projects. The NI 43-101 technical report for the Pinaya Project has an effective date of April 26, 2016 and has been filed on the SEDAR website under Kaizen's profile at [www.sedar.com](http://www.sedar.com) and on the Kaizen website at [www.kaizendiscovery.com](http://www.kaizendiscovery.com).

The Pinaya Project covers 192 square kilometres and includes more than 25 kilometres of strike length within the Andahuaylas-Yauri Porphyry Belt in Peru's provinces of Caylloma and Lampa.

#### About Kaizen Discovery

Kaizen is a Canadian mineral exploration and development company with a portfolio of exploration projects in Canada and Peru. Kaizen's long-term growth strategy is to work with Japanese entities to identify, explore and develop high-quality mineral projects that have the potential to produce and deliver minerals to Japan's industrial sector.

More information on Kaizen is available at [www.kaizendiscovery.com](http://www.kaizendiscovery.com).

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
