

OTTAWA, ONTARIO--(Marketwired - Jul 6, 2016) - [Beaufield Resources Inc.](#) ("Beaufield") (TSX VENTURE:BFD) is pleased to report that drilling has started on the Rouleau block at Urban. The first hole has reached a depth of 762 metres as of yesterday and is targeting the interpreted southwest extension of the promising Bonterra Resources Gladiator Gold Project which remains open in this direction (Bonterra Resources June 20th 2016 news release). The area targeted is located approximately 400 metres southwest of Bonterra's property boundary. A series of holes have been planned to test gold trends extending onto Beaufield's property as shown on to the adjoined map.

Due to the high level of activity and positive outlook for the Urban gold camp, Beaufield management is focusing drilling on its Urban holdings. Beaufield originally acquired the Urban property in 1987 due to its numerous historical gold occurrences and potential for discovery.
