

Bravura Ventures announces submission of plan of operations application for its Musgrove Creek Project

14.12.2016 | [CNW](#)

VANCOUVER, Dec. 14, 2016 - [Bravura Ventures Corp.](#) (CSE: BVQ) (FSE: 23B) (OTCBB: BRVVF) ("Bravura" or the "Company") is pleased to provide an exploration update for its Musgrove Creek Gold Project located in Lemhi County, Idaho. Bravura has submitted a 'Plan of Operations' application to the U.S Forestry Service requesting permission to build drill roads and sites for a forthcoming exploration and definition drilling program.

The U.S Forestry Service in Idaho reviews and approves exploration permits on the lands they manage, with Bravura's Musgrove Project falling under such jurisdiction. The application is expected to be finalized in the spring of 2017, as the Forest Service has stated that field reviews by their specialists that were completed for prior Plan of Operations submissions should be adequate for this application. The application will be subject to routine public notice periods.

Proposed operations under the application maybe conducted over a three-year period, thus allowing for a flexible drilling program and one that could span multiple field seasons. Proposed operations include the reopening of a total of approximately 2,045 metres of previously-constructed and reclaimed drill roads, the construction of a total of approximately 470 metres of completely new road, and the construction of a total of 14 drill sites each approximately 6 metres by 12 metres in area. As many as 3 drill holes per site may be drilled at each site, for a possible total of up to 42 holes and 12,800 metres of total drilling.

Bravura will provide an update on any finalized exploration and drill programs for 2017 in the New Year along, with any decision by the U.S Forestry on the Plan of Operations application, as and when received.
