

MIRAMICHI, NB, May 5, 2017 /CNW/ - [SLAM Exploration Ltd.](#) (TSXV: SXL) (the "Company") announces that further to its news release dated April 13, 2017, the Company has closed the first tranche of the Private Placement for 1,400,000 Units at a price of \$0.05 per Unit and 2,020,000 FT Units at a price of \$0.055 per FT Unit for gross proceeds of \$181,100. Each Unit is comprised of one common share in the capital of the Company and one Warrant. Note the terms of the FT Units have been amended. Each FT Unit is priced at \$0.055 (not \$0.05) and is comprised of one common share in the capital of the Company issued on a "flow-through" basis and one Warrant (not one-half of one Warrant) issued on a "non-flow-through" basis. Each Warrant entitles the holder thereof to acquire one non-flow-through common share at a price of \$0.10 for a period of 24 months, expiring on May 4, 2019. The Units and FT Units are subject to a four-month and one day hold period expiring on September 5, 2017.

The first tranche Private Placement is subject to final approval of the TSX Venture Exchange.

Michael Taylor and Eugene Beukman, Directors of the Company, subscribed, either directly and/or indirectly, for an aggregate 200,000 FT Units and 400,000 Units, constituting related party transactions pursuant to the TSX Venture Exchange Policy 5.9 and Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Company relied on Section 5.5(a) of MI 61-101 for exemptions from the formal valuation requirement and Section 5.7(1)(a) of MI 61-101 for exemptions from the minority shareholder approval requirement of MI 61-101 as the fair market value of the transactions did not exceed 25% of the Company's market capitalization.

Proceeds received from the Units will be used for general corporate purposes. Proceeds received from the FT Units will be used to fund exploration on SLAM's gold and base metal projects in New Brunswick. The main focus is the Menneval gold project where SLAM intends to continue its program to extract and process a 2,000 tonne bulk sample from the high grade Maisie gold vein. The Company also intends to complete preliminary work that may include trenching and diamond drilling on its wholly owned Connector and Lower 44 zinc-lead-silver properties.

#### About SLAM Exploration Ltd:

SLAM is a project generating Resource Company with a portfolio of gold, base metal and lithium projects in the mineral-rich Province of New Brunswick where SLAM's main focus is the wholly-owned Menneval gold project. SLAM holds an NSR royalty on the Superjack and Nash Creek zinc-lead-copper-silver deposits and owns a portfolio of base metal properties in the Bathurst Mining Camp ("BMC"). The Company is utilizing its extensive BMC mineral database to explore and develop properties such as the recently acquired Connector and Lower 44 projects in this historic mineral region. SLAM also owns the Cumberland lithium project in southeastern New Brunswick as well as the Reserve Creek and Miminiska gold projects in Ontario. Additional information about SLAM and its projects is available at [www.slamexploration.com](http://www.slamexploration.com) or from SEDAR filings at [www.sedar.com](http://www.sedar.com).
