Non-Brokered Private Placement

The Pan American Silver private placement, combined with the CEF private placement, will provide an aggregate of C\$9,877,950 for the issuance of 7,317,000 common shares of the Company.

The parties expect the Loan Facility financing, as well as both private placements, to close during August. The closings of the financings remain subject to receipt of all necessary approvals and consents, including approval of the TSX Venture Exchange, and the satisfaction of customary closing conditions.

Maverix intends to use the proceeds from the debt and equity financings to acquire additional precious metals royalties and streams.

After completing the equity financings Maverix expects that its cash balances will have grown to in excess of C\$19 million and when combined with the debt availability give the Company more than C\$44 million to pursue growth opportunities.
