

FORT MCMURRAY, ALBERTA--(Marketwired - Sep 27, 2017) - The Suncor Energy Foundation (SEF) today announced a \$1 million investment, as a founding partner of the recently established Wood Buffalo Community Foundation (WBCF). The investment will help the WBCF continue their collaborative work with donors, grant committees and local charities to strengthen the community and enhance quality of life in the Wood Buffalo region.

"We're thrilled the Suncor Energy Foundation is one of our first founding partners. This generous gift puts us well on the path to achieving our \$10 million fundraising target," said Maureen Cormier Jackson WBCF Chair. "Everyone in this region will benefit from this donation for generations to come. Unlike other charities in the region, we invest the donations we receive and provide grants to eligible community organizations using the interest earned from those investments. We call it 'investing today for a stronger tomorrow'."

The \$1 million investment is in addition to a commitment made by SEF to match donations up to \$500,000 per year for the next four years, bringing SEF's total support for the WBCF to \$3 million to-date.

"As a founding partner of WBCF, SEF worked with community members and organizations that saw the importance of diversifying funding in Wood Buffalo. We are committed to building a strong, resilient, sustainable and vibrant community now and for future generations," said Paul Gardner, board chair, SEF. "WBCF, as a community builder, will play a key role in uniting, strengthening and promoting quality of life in the region."

The WBCF will collaborate with a variety of partners to be a catalyst for community improvement and to serve as a convener of individuals, institutions and resources to work collectively to solve community challenges.

"As we look back over the 50 years that our company has operated in this area, we're reminded of what it means to be part of *building* the community," said Bruno Francoeur, regional operations executive, Suncor. "Both Suncor and Wood Buffalo have come a long way, and as we've expanded operations this community has grown and prospered with us. When we face challenges we come together and support one another. "

The WBCF aims to provide long term financial support for projects in the areas of social, health, environment, sport, arts, culture and other worthwhile community endeavors. A percentage of the invested income will be granted each year to qualified donees. The Foundation was formally launched in Fort McMurray on June 8, 2017. The next phase of development is to build the endowment fund so the Foundation can begin granting to support community needs.
