

Asanko Gold Announces Q3 2017 Production Results

19.10.2017 | [Marketwire](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwire - Oct. 19, 2017) -

Q3 2017 Highlights:

- Quarterly gold production of 49,293 ounces and gold sales of 50,241 ounces, on track to meet 2017 revised production guidance of 205,000 – 225,000 ounces
- US\$63.6 million in gold revenue at an average realized price of US\$1,265 per ounce
- Nkran reconciliation confirming the Mineral Resource and Reserve Estimates
- Industry-leading safety record maintained with a rolling 12 month LTIFR of 0.19
- Stable balance sheet with unaudited cash and immediately convertible working capital balances of approximately \$100 million (September 30, 2017)

[Asanko Gold Inc.](#) ("Asanko" or the "Company") (TSX:AKG)(NYSE American:AKG)(NYSE MKT:AKG) announces production results for the third quarter of 2017 ("Q3") from the Asanko Gold Mine ("AGM"), located in Ghana, West Africa. Q3 operational and financial results will be published on November 3, 2017, conference call and webcast details below.

Commenting on the quarter Peter Breese, President and CEO, said *"Overall, our quarterly production performance for Q3 was very encouraging, with positive results in a number of key areas: reconciliations confirming the Nkran resource model, management of ore losses and dilution and the plant achieving milling rates in excess of 13,500 tonnes on a per day capacity basis."*

Although July and August production was impacted by the three mill motor outages, which equated to in excess of 5,000 ounces of lost gold production, the quarter still produced a very respectable 49,293 ounces. Looking ahead to the final quarter of 2017, we maintain our revised guidance of 205,000 - 225,000 ounces."

Health and Safety

There were no lost time injuries ("LTI") reported during the quarter and the 12-month rolling lost time injury frequency rate ("LTIFR") per million man hours worked is 0.19.

Production

At Nkran, the deployment of blast monitoring technology to minimize ore losses and dilution has been yielding positive results. During Q3 mining operations extracted ore from multiple zones of mineralization with an average mining grade of 1.8 g/t.

At the Akwasiso satellite deposit, mining operations delivered approximately 20,000tpm of oxide ore.

At Dynamite Hill, the second satellite pit to be brought into production, site establishment commenced during the quarter and preparation of ore mining operations in Q4 2017.

The processing plant's performance during Q3 was impacted by three mill motor outages during July and August that resulted in a total of 11 days of lost milling time, which equates to in excess of 5,000 ounces of gold production. Metallurgical recovery continued to exceed design levels at 94% with higher than design gravity recovery performance.

AGM Key Production Statistics	Units	Q1 2017	Q2 2017	Q3 2017
Total Tonnes Mined	000 t	6,637	7,506	8,519
Waste Tonnes Mined	000 t	5,620	6,458	7,339
Ore Tonnes Mined	000 t	1,017	1,048	1,180
Strip Ratio	W:O	5.5:1	6.2:1	6.2:1
Average Gold Grade Mined	g/t	1.8	1.5	1.8
Ore Treated	000 t	908	887	862
Gold Feed Grade	g/t	2.0	1.7	1.9
Gold Recovery	%	95	94	94
Gold Produced	oz	58,187	46,017	49,293

Nkran Resource & Reserve Reconciliation

The reconciliation process to measure the entire value chain from gold in the ground through to mill feed and eventual production against the mineral resource estimate continued during the quarter. The grade control versus the resource reconciliation continues to be positive and the reserve to mill feed reconciliation is within 1% for the quarter.

Sales and Liquidity

Gold production for the quarter was 49,293 ounces with gold sales of 50,241 ounces at an average realized price of US\$1,241 per ounce, generating gold sales revenue of US\$63.6 million. At September 30, 2017 the Company's balance sheet had approximately US\$60.7 million in unaudited cash, US\$1.4 million in gold receivables and US\$2.2 million in dore (with a value of US\$3.7 million).

Under the current debt financing agreement with RK Mine Finance ("Red Kite"), the Company's first principal repayment of the US\$150 million debt facility is due on July 1, 2018. However, as previously disclosed, Asanko has the option until March 31, 2018 to extend the first principal repayment of the facility by an additional year to July 1, 2019. Asanko is currently in discussions with Red Kite regarding the possible refinancing of the debt facility to support its Project 5 Million growth plan, which includes the construction of an overland conveyor and bringing the large Esaase deposit into production.

Qualified Person Statement

Frederik Fourie, Asanko Senior Mining Engineer (Pr.Eng) is the Asanko Qualified Person, as defined by Canadian National Instrument 43-101 (Standards of Mineral Disclosure), who has approved the preparation of the technical contents of this release.

Q3 2017 Operating and Financial Results Conference Call & Webcast Details

Management will host a conference call and webcast at 9am EST on Friday, November 3, 2017 to discuss the Q3 2017 operating and financial results, which will be published on the same day:

US/Canada Toll Free: 800 954 0585
 UK Toll Free: 0800 496 1094
 International: + 1 312 281 1210

Webcast:

About Asanko Gold Inc.

Asanko's vision is to become a mid-tier gold mining company that maximizes value for all its stakeholders. The Company's flagship project is the multi-million ounce Asanko Gold Mine located in Ghana, West Africa.

Asanko is managed by highly skilled and successful technical, operational and financial professionals. The Company is committed to the highest standards for environmental management, social responsibility, and health and safety for its employees and neighbouring communities.

Forward-Looking and other Cautionary Information

This release includes certain statements that may be deemed "forward-looking statements". All statements in this release other than statements of historical facts, that address estimated resource quantities, grades and contained metals, possible future mining, exploration and development activities, are forward-looking statements. Although the Company believes the forward-looking statements are based on reasonable assumptions, such statements should not be in any way construed as guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include: fluctuations in prices for metals, the conclusions of detailed feasibility and technical analyses, the timely renewal of key permits, lower than expected grades and quantities of resources, mining rates and recovery rates and the lack of availability of necessary capital which may not be available to the Company on terms acceptable to it or at all. The Company is subject to the specific risks inherent in the mining business as well as general economic and business conditions. For more information on the Company, Investors should review the Company's Annual Form 40-F filing with the United States Securities Commission and its home jurisdiction filings that are available at www.sedar.com.

Neither Toronto Stock Exchange nor the Investment Industry Regulatory Organization of Canada accepts responsibility for the adequacy or accuracy of this release.

Cautionary Note to US Investors Regarding Mineral Reporting Standards:

Asanko has prepared its disclosure in accordance with the requirements of securities laws in effect in Canada, which differ from the requirements of US securities laws. Terms relating to mineral resources in this press release are defined in accordance with the National Instrument 43-101 - Standards of Disclosure for Mineral Projects under the guidelines set out in the Canadian Mining, Metallurgy, and Petroleum Standards on Mineral Resources and Mineral Reserves. The Securities and Exchange Commission (the "SEC") permits mining companies, in their filings with the SEC, to disclose only those mineral deposits that can be economically and legally extracted or produced. Asanko uses certain terms, such as, "measured mineral resources", "indicated mineral resources", "inferred mineral resources" and "probable mineral reserves", that the SEC does not recognize (these terms may be used in this press release and are included in the public filings of Asanko which have been filed with the SEC or similar authorities in Canada).
