

Gitennes Exploration mobilizes drill equipment to Snowbird High Grade Gold Project

19.10.2017 | [The Newswire](#)

Vancouver, October 19, 2017 - [Gitennes Exploration Inc.](#) ("Gitennes" or the "Company") has contracted Black Hawk Diamond Drilling of Smithers, BC to do the diamond drilling on its Snowbird High Grade Gold Project. Black Hawk has mobilized drill equipment to site in anticipation of commencement of the drilling programme. The Snowbird project is located in north central BC and is accessible year round via paved and dirt roads and sits at a relatively low elevation with moderate relief (not exceeding 190 metres). The ease of access to all parts of the property enables cost effective diamond drilling throughout the entire year.

Gitennes' work over the past several months has helped focus and plan the Company's first diamond drill programme at Snowbird. The Company plans to drill a minimum of 1,000 metres and will focus on the Main and North Zones. The recent delineation of the strike extent of the Snowbird gold bearing structure and the high grade nature of the historical drill results provides a great opportunity for Gitennes.
