

Gold Fields Limited: South Deep Restructuring and Trading Statement

14.08.2018 | [PR Newswire](#)

JOHANNESBURG, August 14, 2018 -

[Gold Fields Ltd.](#) (Gold Fields) (JSE: GFI) (NYSE: GFI) announces a restructuring at its South Deep operation and provides a further trading statement relating to its H1 2018 results, due for release on Thursday, 16 August 2018.

South Deep has had a number of operational challenges since Gold Fields acquired it in 2006. The key challenge has been the difficulty in transitioning the mine from one run with a conventional mining mindset and practices to mining with a modern, bulk, mechanised mining approach. South Deep is a complex and unique mine, that has faced persistent issues that need to be addressed in a holistic manner which include:

- Rising operating and overhead costs, which are not aligned with the profile of a high-volume, medium-grade operation or with current output levels;
- Consistent failure to meet mining and production targets;
- Unique and complex mining method, long hole stoping mining at 3,000m with attendant challenging geotechnical and ground conditions requiring extensive support;
- Extensive infrastructure and support services required to underpin mining activities, which continue to operate sub-optimally impacting backfill and stope turn over;
- Poor equipment reliability and productivity impacted by poor maintenance practices and operational conditions;
- The operation is staffed and resourced for a much higher production rate than is currently being achieved; and
- Overall labour productivity is significantly below industry average.
