

Azarga Uranium Listed on OTCQB

22.08.2018 | [FSCwire](#)

Vancouver, British Columbia (FSCwire) - [Azarga Uranium Corp.](#) (TSX:AZZ, OTCQB: AZZUF, FRA: P8AA) is pleased to announce that its common shares will commence trading at the open on 23 August 2018 on the OTCQB Venture Market in the United States under the trading symbol "AZZUF"; in addition to its primary listing on the Toronto Stock Exchange under its existing trading symbol AZZ.

Trading on the OTCQB Venture Market is an important component of our investor relations strategy to increase Azarga Uranium's profile and exposure to a broader audience, including the United States investment community," said Blake Steele, CEO of Azarga Uranium.

The OTCQB Venture Market is for entrepreneurial and development stage United States and international companies. To be eligible, companies must be current in their financial reporting, pass a minimum bid price test and undergo an annual company verification and management certification process. The OTCQB Venture Market quality standards provide a strong baseline of transparency, as well as the technology and regulation to improve the information and trading experience for investors.

In addition, the Company's common shares are eligible for delivery and depository services of the Depository Trust Company (the DTC) to facilitate electronic settlement of transfers of its common shares in the United States. Securities that are eligible to be electronically cleared and settled through the DTC are considered DTC eligible. This electronic method of clearing securities speeds up the receipt of stock and cash, and therefore accelerates the settlement process for investors and greatly reduces transactional costs for participating stock brokerages.

Investors can find real-time quotes and market information for the Company at www.otcmarkets.com symbol AZZUF and <https://web.tmxmoney.com> symbol AZZ.

About Azarga Uranium Corp.

Azarga Uranium is an integrated uranium exploration and development company that controls ten uranium projects and prospects in the United States of America (USA) (South Dakota, Wyoming, Utah and Colorado) and the Kyrgyz Republic, with a primary focus of developing in-situ recovery uranium projects in the USA. The Dewey Burdock in-situ recovery uranium project in South Dakota (the Dewey Burdock Project), which is the Company's initial development priority, has received its Nuclear Regulatory Commission License and draft Class III and Class V Underground Injection Control (UIC) permits from the Environmental Protection Agency (EPA) and the Company is in the process of completing other major regulatory permit approvals necessary for the construction of the Dewey Burdock Project, including the final Class III and Class V UIC permits from the EPA.

Disclaimer for Forward-Looking Information

Certain information and statements in this news release may be considered forward-looking information or forward-looking statements for purposes of applicable securities laws (collectively, "forward-looking statements"), which reflect the expectations of management regarding its disclosure and amendments thereto. Forward-looking statements consist of information or statements that are not purely historical, including any information or statements regarding beliefs, plans, expectations or intentions regarding the future. Such information or statements may include, but are not limited to, statements with respect to Azarga Uranium's continued efforts to obtain all major regulatory permit approvals necessary for the construction of the Dewey Burdock Project, including the final Class III and Class V UIC permits from the EPA. Such statements are subject to risks and uncertainties that may cause actual results, performance or developments to differ materially from those contained in the statements. No assurance can be given that any of the events anticipated by the forward-looking statements will occur or, if they do occur, what benefits Azarga Uranium will obtain from them. These forward-looking statements reflect management's current views and are based on certain expectations, estimates and assumptions, which may prove to be incorrect. A number of risks and uncertainties could cause our actual results to differ materially from those expressed or implied by the forward-looking statements, including without limitation: the risk that Azarga Uranium does not obtain all major regulatory permit approvals necessary for construction of the Dewey Burdock Project, including the final Class III and Class V UIC permits from the EPA. These forward-looking statements are made as of the date of this news release and, except as required by applicable securities laws, Azarga Uranium assumes no obligation to update these forward-looking statements, or to update the reasons why actual results differed from those projected in the forward-looking statements. Additional information about these and other assumptions, risks and uncertainties are set out in the "Risks and Uncertainties" section in the most recent MD&A filed with Canadian security regulators.
