IMPORTANT DEADLINE: Investors who purchased Pretium's securities during the Class Period may, *no later than November 6, 2018*, seek to be appointed as a lead plaintiff representative of the investor class.

The shareholder class action complaint alleges that defendants made a series of false and misleading statements during the Class Period and failed to disclose material information to investors about the Company's Brucejack Project. The complaint further alleges that, as a result of the foregoing, investors purchased Pretium's securities at artificially inflated prices during the Class Period and suffered investment losses as a result of defendants' conduct.

As detailed in the complaint, on January 23, 2018, Pretium disclosed lower gold production than previously reported, and also delayed achievement of steady state gold production and operation of the grade control program. *Following this news, Pretium's share price fell \$2.86 per share, or over 26%, to close at \$7.93 per share on January 23, 2018.*

Then, on September 6, 2018, Viceroy Research published a report entitled "Pretium Resources - digging up dirt," alleging, among other things, that Pretium's "mining results have been distorted." *Following this news, Pretium's share price fell an additional \$0.77 per share, or approximately 10%, to close at \$6.94 per share on September 6, 2018.*
