

Rockridge Resources Establishes Technical Advisory Board with Canadian Mining Hall of Famer Ronald Netolitzky

16.01.2019 | [GlobeNewswire](#)

VANCOUVER, Jan. 16, 2019 - [Rockridge Resources Ltd.](#) (TSX-V: ROCK) ("Rockridge") (the "Company") is pleased to announce that Ron Netolitzky, P.Geo., has joined the Company as the first member of a Technical Advisory Board to assist Rockridge's management team in the exploration of the Company's project base.

Mr. Netolitzky has had a very successful career in mining and mineral exploration with decades of experience and having been directly associated with three major mineral discoveries in Canada that have subsequently been put into production: Eskay Creek, Snip and Brewery Creek. At Eskay Creek, Mr. Netolitzky's Consolidated Stikine Resources was acquired by Placer Dome and International Corona for \$67 per share in what was one of the more famous transactions in Western Canadian mining history.

He was previously Chairman and President of Viceroy Exploration Ltd., which achieved exploration success with its Gualcaymayo gold project in Argentina and went on to produce 200,000 ounces of gold a year. Viceroy Exploration was successfully acquired by Yamana Gold in 2006. Mr. Netolitzky was also Chairman of Brett Resources Inc., which was acquired by Osisko Mining Corp. in the Spring of 2010 for the Hammond Reef gold project in Ontario. He is currently a director of several publicly traded exploration companies and has contributed to the growth of many junior companies as well as being involved in 12 significant merger-and-acquisition events.

Mr. Netolitzky has been honoured with the Prospector of the Year award from the PDAC, and Developer of the Year award from the BC & Yukon Chamber of Mines. In 2015, he was inducted into the Canadian Mining Hall of Fame. Mr. Netolitzky graduated from the University of Alberta with a B.Sc. in geology in 1964 and a M.Sc. from University of Calgary in 1967.

Rockridge's CEO, Jordan Trimble stated: "We would like to welcome Mr. Netolitzky to the Rockridge team and we are honoured to have him as a Technical Advisor and shareholder. He has been directly involved in the mineral exploration industry in Western Canada since 1964, and his knowledge of exploration and his aggressive business acumen resulted in discovery success on three Western Canadian mineral projects all of which became producing mines. Ron has also carried out exploration programs near our flagship Knife Lake Project in Saskatchewan and he knows the area well. He will be a highly valued part of the team and we look forward to working with him as we advance our project base."

Mr. Netolitzky stated: "I am excited to work with management and the geological team at the newly formed and well-structured Rockridge Resources. I have worked in the area around the Knife Lake Project and believe there is robust discovery potential there which the Company plans to test with its upcoming drill program."

About Rockridge Resources Ltd.

Rockridge Resources is a new publicly traded mineral exploration company focused on the acquisition, exploration and development of mineral resource properties in Canada, specifically copper and battery metal projects. The Company's flagship project is the Knife Lake project located in Saskatchewan, which is ranked as the #2 mining jurisdiction in the world by the Fraser Institute. The project hosts the Knife Lake deposit, which is a VMS, near-surface copper-cobalt-gold-silver-zinc deposit open along strike and at depth. There is strong discovery potential in and around the deposit area as well as at regional targets on the 85,196-hectare property. Rockridge's goal is to maximize shareholder value through new mineral discoveries, committed long-term partnerships, and the advancement of exploration projects in geopolitically favourable jurisdictions. The Company has approx. 23.2 million shares issued and outstanding.

Forward Looking Information

This news release includes certain statements that constitute "forward-looking information" within the meaning of applicable securities law, including without limitation, statements that address the Property, obtaining a permit, comments regarding the timing and content of upcoming work programs, timing of future exploration and development, acquisition of other mineral properties, other statements relating to the financial and business prospects of the Company. Forward-looking statements address future events and conditions and are necessarily based upon a number of estimates and assumptions. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "estimates" or "intends", or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved), and variations of such words, and similar expressions are not statements of historical fact and may be forward-looking statements. Forward-looking statement are necessarily based upon a number of factors that, if untrue, could cause the actual results, performances or achievements of the Company to be materially different from future results, performances or achievements express or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the price of gold and other metals, anticipated costs and the ability to achieve goals. While such estimates and assumptions are considered reasonable by the management of the Company, they are inherently subject to significant business, economic, competitive and regulatory uncertainties and risks.

Forward-looking statements are subject to a variety of risks and uncertainties, which could cause actual events, level of activity, performance or results to differ materially from those reflected in the forward-looking statements, including, without limitation: (i) risks related to gold, base metal and other commodity price fluctuations; (ii) risks and uncertainties relating to the interpretation of exploration results; (iii) risks related to the inherent uncertainty of exploration and cost estimates and the potential for unexpected costs and expenses; (iv) that resource exploration and development is a speculative business; (v) that the Company may lose or abandon its property interests or may fail to receive necessary licences and permits; (vi) that environmental laws and regulations may become more onerous; (vii) that the Company may not be able to raise additional funds when necessary; (viii) the possibility that future exploration, development or mining results will not be consistent with the Company's expectations; (ix) exploration and development risks, including risks related to accidents, equipment breakdowns, labour disputes or other unanticipated difficulties with or interruptions in exploration and development; (x) competition; (xi) the potential for delays in exploration or development activities or the completion of geologic reports or studies; (xii) the uncertainty of profitability based upon the Company's history of losses; (xiii) risks related to environmental regulation and liability; (xiv) risks associated with failure to maintain community acceptance, agreements and permissions (generally referred to as "social licence"); (xv) risks relating to obtaining and maintaining all necessary government permits, approvals and authorizations relating to the continued exploration and development of the Company's projects; (xvi) risks related to the outcome of legal actions; (xvii) political and regulatory risks associated with mining and exploration; (xix) risks related to current global financial conditions; and (xx) other risks and uncertainties related to the Company's prospects, properties and business strategy. These risks, as well as others, could cause actual results and events to vary significantly.

There can be no assurance that planned exploration will be completed as proposed or at all, or that economic resources will be discovered or developed at the Property; and there can be no assurance that the

Company will acquire other mineral properties. Accordingly, actual results may differ materially from those currently anticipated in such statements. Factors that could cause actual results to differ materially from those in forward looking statements include, but are not limited to, continued availability of capital and financing and general economic, market or business conditions, market prices, exploration and development successes or failures, the loss of key directors, employees, advisors or consultants and fees charged by service providers. Investors are cautioned that forward-looking statements are not guarantees of future performance or events and, accordingly are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty of such statements. The forward-looking statements included in this news release are made as of the date hereof and the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by applicable securities legislation.
