About Rockcliff Metals Corporation

Rockcliff is a well-funded Canadian resource development and exploration company with approximately \$25.9 million in cash, a fully functional +1000 tpd permitted leased processing and tailings facility as well as several advanced stage, high-grade copper and zinc dominant VMS deposits in the Snow Lake area of Manitoba. The Company is continuing the permitting process for its 100% owned Tower copper project which it expects to be completed by Q4 2019. The permit process would allow the Company to develop the property using ramp access and to extract a bulk sample for test purposes. The Company is a major landholder in the Flin Flon-Snow Lake greenstone belt which is home to the largest Paleoproterozoic VMS district in the world hosting mines and deposits containing copper, zinc, gold and silver.
