Turquoise Hill seeks interim order from Arbitration Tribunal to protect viability of its proposed funding strategy

28.01.2021 | CNW

MONTREAL, Jan. 28, 2021 - <u>Turquoise Hill Resources Ltd.</u> ("Turquoise Hill" or the "Company") announces that it has application for an interim order before the Tribunal in its arbitration proceedings with Rio Tinto International Holdings Li (RTIHL) and a related party. The Company is taking this step in response to certain actions taken by Rio Tinto which wout by Rio Tinto:

- limit the Company's ability to pursue identified financing options for the Oyu Tolgoi project and, more generally, the for successfully implementing the Company's funding strategy; and
- pre-empt the ultimate decision of the arbitrator.

Rio Tinto is purporting to use certain procedures under contractual arrangements to compel Turquoise Hill to:

- authorise Rio Tinto to pursue re-profiling negotiations with existing lenders in a manner that the Company considerender Oyu Tolgoi LLC unable to execute an offering of bonds in 2021; and
- refrain from engaging on funding and other matters with its fellow OT stakeholders, including our valued partner E
 Tolgoi LLC and the Government of Mongolia.

About Turquoise Hill Resources

Turquoise Hill is an international mining company focused on the operation and continued development of the Oyu Tolgo copper-gold mine in Mongolia, which is the Company's principal and only material mineral resource property. Turquoise ownership of the Oyu Tolgoi mine is held through a 66% interest in Oyu Tolgoi LLC (Oyu Tolgoi); Erdenes Oyu Tolgoi L Mongolian state- owned entity, holds the remaining 34% interest.

Certain important factors that could results, performance or achievements to differ materially from those in the forward-looking statements and information among others: copper, gold and silver price volatility; discrepancies between actual and estimated production; mineral resources and metallurgical recoveries; development plans for processing resources; public health crises such as COV matters relating to proposed exploration or expansion; mining operational and development risks, including geotechnic ground conditions; litigation risks, including the outcome of the class action complaints filed against the Company; regu restrictions (including environmental regulatory restrictions and liability); Oyu Tolgoi LLC or the Government of Mongoli deliver a domestic power source for the Oyu Tolgoi project within the required contractual time frame; communications stakeholders and community relations; activities, actions or assessments, including tax assessments, by governmental events or circumstances (including strikes, blockades or similar events outside of the Company's control) that may affe Company's ability to deliver its products in a timely manner; currency fluctuations; the speculative nature of mineral exp global economic climate; dilution; share price volatility; competition; loss of key employees; cyber security incidents; ad funding requirements, including in respect of the development or construction of a long-term domestic power supply for Tolgoi project; capital and operating costs, including with respect to the development of additional deposits and process facilities; and defective title to mineral claims or property. Although the Company has attempted to identify important facilities; could cause actual actions, events or results to differ materially from those described in forward-looking statements and information, there may be other factors that cause actions, events or results not to be as anticipated, estimated or inter such forward-looking statements and information are based on certain assumptions and analyses made by the Compa management in light of their experience and perception of historical trends, current conditions and expected future deve as well as other factors management believes are reasonable and appropriate in the circumstances. These statements are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ ma those projected in the forward-looking statements or information.

With respect to forward-looking information concerning the continued operation and development of Oyu Tolgoi, the Cobased its assumptions and analyses on certain factors which are inherently uncertain. Uncertainties and assumptions is among others: the timing and cost of the construction and expansion of mining and processing facilities; the timing and of a long-term domestic power source (or the availability of financing for the Company or the Government of Mongolia to such a source) for Oyu Tolgoi; the ability to secure and draw down on the supplemental debt under the Oyu Tolgoi proj facility and the availability of additional financing on terms reasonably acceptable to Oyu Tolgoi LLC, Rio Tinto and the further develop Oyu Tolgoi as well as the status and nature of the Company's ongoing discussions with Rio Tinto with refuture funding plans and requirements (including as contemplated by the MoU); the status and nature of the Company's and interaction with the Government of Mongolia on the continued operation and development of Oyu Tolgoi and Oyu

11.12.2025 Seite 2/3

internal governance (including the outcome of any such interactions or discussions); the willingness and ability of the punderground Plan to amend or replace the Underground Plan; the nature and quantum of the current and projected echenefits to Mongolia resulting from the continued operation of Oyu Tolgoi; the potential impact of COVID-19; the impact in, changes in interpretation to or changes in enforcement of, laws, regulations and government practices in Mongolia; availability and cost of skilled labour and transportation; the obtaining of (and the terms and timing of obtaining) necess environmental and other government approvals, consents and permits; delays, and the costs which would result from development of the underground mine (which could significantly exceed the costs projected in OTTR20); projected cop and silver prices and their market demand; and production estimates and the anticipated yearly production of copper, gilver at Oyu Tolgoi.

The cost, timing and complexities of mine construction and development are increased by the remote location of a proposition of proposition. It is common in mining operations and in the development or expansion of existing facilities to experience uproblems and delays during development, construction and mine start-up. Additionally, although Oyu Tolgoi has achieved commercial production, there is no assurance that future development activities will result in profitable mining operation.

Readers are cautioned not to place undue reliance on forward-looking information or statements. By their nature, forware statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, which contribute possibility that the predicted outcomes will not occur.
