

Clarity Gold Mobilizes Second Rig for Ongoing Drill Program in Quebec

07.04.2021 | [GlobeNewswire](#)

VANCOUVER, April 07, 2021 - [Clarity Gold Corp.](#) ("Clarity" or the "Company") (CSE: CLAR, OTC: CLGCF, FSE: 27G) is pleased to report that it has begun mobilizing a second drill rig to the Destiny Project in the Abitibi. The rig will commence operations at the GAP Zone, a coarsely drilled zone along strike and east of the DAC Zone. The drill will be tasked with completing several holes designed to infill historic drilling and test the GAP Zone at depth. Salient results from previous drilling in the GAP Zone include 16.1 g/t Au over 6 m from 85.5 m including 90.3 g/t Au over 1 m.

"We are very excited to bring a second drill rig into our ongoing program," said James Rogers, CEO of Clarity. "As exploration progresses, the addition of the second drill rig will increase efficiency allowing the company to more rapidly complete the planned program."

About the Destiny Project

- Option to acquire 100% ownership.
- Located in the historic, mineral rich Abitibi Greenstone Belt.
- Gold mineralization occurs in high-grade quartz veins within shear zones starting at 15 m below surface.
- Drilling results include:
 - 167 g/t Au over 1 m (from 221.7 m)
 - 6.15 g/t Au over 23.6 m (from 117.2 m)
 - 19.49 g/t Au over 2.7 m (from 166.0 m)
- The Historical Estimate at the DAC Zone is open along strike with only coarse drilling denoting high grade intercepts outside of the 2011 Historical Estimate area showing expansion potential along strike from the DAC Zone over approximately 2.5 km to the Darla Zone.
- Excellent infrastructure - ~75 km NNE of Val d'Or with road access.
- Considerable work done historically including over 50,000 m of diamond drilling.

The Destiny Project is located in the prolific Abitibi Greenstone Belt where more than 190 million ounces of gold have been produced historically along major structural breaks within the assemblage of Archean-age volcanic, sedimentary and intrusive rocks. The Destiny Project lies along the approximately 400 km long Chicobi Deformation Zone, a major structural break which is largely underexplored in the Abitibi Greenstone Belt.

The 5,013 ha project includes the DAC Zone, one of several gold zones along an approximately 6 km long segment of the Despinassy Shear Zone within the Chicobi Deformation Zone. Approximately 2.5 km east along strike of the DAC Zone is the Darla Zone. In between the Darla and DAC is the coarsely drilled GAP zone where 2012 drilling intercepted anomalous gold in all 12 holes which were spaced 100 m apart.

The current exploration potential is based on decades of past work on the Destiny Project. Exploration of the Destiny Project dates back to the 1930s. The first concerted diamond drilling campaign commenced in 1998.

Previous work on the property can be summarized as follows:

- 172 Diamond drill holes comprising approximately 50,400 m
- Reconnaissance till sampling from 11 Sonic drill holes
- 2,430 MMI geochemical samples
- 982 line km of airborne VTEM surveys
- 171 line km of ground magnetics surveys
- 128 line km of IP

Qualified Person

Mr. Rory Kutluoglu P. Geo., a member of the advisory board and a consultant of the Company, is the Qualified Person ("QP") under NI 43-101 for the technical information in this news release and has verified the data disclosed for the Destiny Project and approves the technical contents contained in this news release.

About Clarity

[Clarity Gold Corp.](http://www.claritygoldcorp.com) is a Canadian mineral exploration company focused on the acquisition, exploration and development of gold projects in Canada. The Company has entered into an option agreement to purchase 100% of the Destiny Project, Clarity's flagship asset, a gold-focused project in the mineral rich Abitibi region in Quebec. The Company is based in Vancouver, British Columbia, and is listed on the CSE under the symbol "CLAR". To learn more about Clarity Gold Corp. and its projects please visit www.claritygoldcorp.com.

ON BEHALF OF THE BOARD

"James Rogers"

Chief Executive Officer

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION:

This news release contains forward-looking statements. All statements, other than statements of historical fact that address activities, events or developments that the Company believes, expects or anticipates will or may occur in the future are forward-looking statements. Forward-looking statements in this news release include statements regarding: that the first drilling will confirm historic drilling results and provide continuous assays across the mineralized zone where previous drilling only sampled specific intervals; that the drilling will extend mineralization to depth in the DAC zone and along the Gap and Darla Zones; and that the Company will complete the planned initial 10,000m drilling program.

The forward-looking statements reflect management's current expectations based on information currently available and are subject to a number of risks and uncertainties that may cause outcomes to differ materially from those discussed in the forward-looking statements including: that the drilling may not go as planned or start when expected; that the Company may experience difficulties in drilling and carrying out related work; changing costs for mining and processing; increased capital costs; the timing and content of upcoming work programs; geological interpretations based on drilling that may change with more detailed information; the risk that the Company may lose access to the property; the risks that the Company may not find any minerals in commercially feasible quantities; that the Company may not raise enough money to fund its exploration plans; uncertainty of development plans and cost estimates; commodity price fluctuations; political or economic instability and regulatory changes; currency fluctuations; the state of the capital markets; uncertainty in the measurement of mineral reserves and resource estimates; the Company's ability to attract and retain qualified personnel and management; potential labour unrest; uncertainty as to reclamation and closure requirements for its mineral properties; unpredictable risks and hazards related to the exploration and development and operation of a mine or mineral property that are beyond the Company's control; and other risks and uncertainties identified under the heading "Risk Factors" in the Company's continuous disclosure documents filed on SEDAR. Although the Company believes that the assumptions inherent in the forward-looking statements are reasonable, forward-looking statements are not guarantees of future performance and, accordingly, undue reliance should not be put on such statements due to their inherent uncertainty. Factors that could cause actual results or events to differ materially from current expectations include general market conditions and other factors beyond the control of the Company. The Company expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required by applicable law.
