The Company intends to use the net proceeds of the Private Placement for further advancing the Company's 57,000-hectare flagship Poplar Copper Project (the "Poplar"), located southwest of Houston, British Columbia, and for ongoing general working capital requirements.

A director of the Company participated in the Private Placement by subscribing for a total of 200,000 Units at \$0.10 per Unit. The Company has relied on exemptions pursuant to Multilateral Instrument 61-101- Protection of Minority Security Holders in Special Transactions ("MI 61-101") in respect of related party participation in the placement as neither the fair market value (as determined under MI 61-101) nor the fair market value of the consideration for, the transaction, insofar as it involved the related parties, exceeded 25% of the Company's market capitalization (as determined under MI 61-101).
