Filed under GMIN's profile on Sedar, entitled "Feasibility Study - NI 43-101 Technical Report, Tocantinzinho Gold Project."

Louis-Pierre Gignac, President & Chief Executive Officer, commented: "Thanks to our shareholders, team members, local stakeholders and other supporters, 2022 has been a transformational year for GMIN. As 2022 drew to a close, I am extremely gratified to take stock of some of what we have accomplished as a team. I look forward to leading this team to make continued excellent progress on all fronts on our TZ project using our proven self-perform approach. I am excited for GMIN's future as we continue to target commercial production at TZ in the second half of 2024, and I look forward to growing the Corporation using TZ as its cornerstone asset. I would like to offer my thanks for everyone's contribution and support to what has been an outstanding year for G Mining Ventures Corp."

Additionally, GMIN is committed to social and environmental responsibility in all its activities.

# Local Employment

- The Project is expected to create up to 1,200 jobs during the construction phase and over 600 permanent jobs during the operation stage
- 765 employees and contractors are currently employed by the Project with 99% of the workforce comprised of Brazilians, including 61% from nearby communities of Itaituba, Morais Almeida, Jardim de Ouro and Mamoal
- In addition to the training during the construction phase, GMIN plans to invest over 85,000 hours on internal training to develop the skills of the local workforce

# **Environmental Protection**

- Reforestation efforts have been initiated with the planting of first seedlings from the terrarium
- Water quality monitoring is ongoing in pit lagoons and other water bodies

## Community Programs

- GMIN provided internet access and IT infrastructure for Escola Municipal de Ensino Fundamental César Almeida, the local elementary and middle school of Moraes Almeida, benefiting 1,700 enrolled students and 80 staff members
- GMIN will support local community requests related to education, health and cultural initiatives through provision of funding and expertise
- Franco-Nevada is providing up to \$250,000 per year, for four years, for investment towards environmental initiatives and social projects in the communities surrounding TZ

#### Other Long-term Local Benefits

- Creation of long-lasting shared infrastructure, such as the 190km transmission line
- In addition to powering the project through 80% renewable energy, the transmission line will become part of the state utility infrastructure, providing reliable power to the region
- Construction of a bypass road in Jardim do Ouro to improve safety by diverting heavy traffic from current industrial activities by other companies (and future GMIN operations) away from the village

In closing, GMIN is on the cusp of an exciting new phase, made possible by the experience, ability, innovation, and can-do attitude of the GMIN team. Together, this team will continue to build on the milestones reached in 2022 to create new value for shareholders, employees and communities through the vear ahead.

Cautionary Statement on Forward-Looking Information

All statements, other than statements of historical fact, contained in this press release constitute "forward-looking information" and "forward-looking statements" within the meaning of certain securities laws and are based on expectations and projections as of the date of this press release. Forward-looking statements contained in this press release include, without limitation, those related to:

- the Corporation being positioned for growth in 2023 and beyond,
- the Project's economics, notably its after-tax NPV and IRR, and the sensitivity thereof to the gold price,
- the Project's contingency,
- the Corporation having long-term cornerstone shareholders,
- the Corporation keeping the Project on track and on budget for commercial production in H2-2024,
- the expected job creation numbers,
- the continuity of higher grade gold in pit area, and the extension of mineralization below existing pit shell.
- the Corporation's ability to support the local community requests.
- the creation of long-lasting shared infrastructure, such as the transmission line,
- the Corporation continuing to build on the 2022 milestones to create new value for its stakeholders through the year ahead, and
- more generally, the President & Chief Executive Officer's comments hereinabove as well as the whole
  contents of the above sections entitled "Timesheet and Next Steps" and "About G Mining Ventures
  Corp.".

Forward-looking statements are based on expectations, estimates and projections as of the time of this press release. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Corporation as of the time of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. These estimates and assumptions may prove to be incorrect.
