Over the last 24 months the Opawica team, in conjunction with GoldSpot Discoveries (SPOT), have completed multiple programs on both properties. With over \$4,000,000 invested on our flagship assets alone and 80% of all our drill holes containing gold from low to high grade. The team is confident that with all the new data we can exceed expectations on our future drill programs to define these assts. The Agnico Eagle acquisition of Yámana confirms that we are in an extremely high demand region, with multiple active mines contiguous to our claims.

The Company plans to have an update over the coming weeks with a new work program and new drill targets.
