

Capella Sells Savant Gold Project to Prospector Metals

04.04.2024 | [CNW](#)

VANCOUVER, April 4, 2024 - [Capella Minerals Ltd.](#) (TSXV: CMIL) (OTCQB: CMILF) (FRA: N7D2) ("Capella" or the "Company") is pleased to announce that it has entered in to a Property Acquisition Agreement with [Prospector Metals Corp.](#) (TSXV: PPP) ("Prospector") through which Prospector will acquire a 100% interest in the Savant Gold Project in Ontario, Canada. Prospector has been exploring the Savant Gold Project through an Earn-In Agreement announced in September, 2020, and has defined a number of high-grade gold targets from work conducted within both the extensive Iron Formation sequences (e.g. the Snowbird, Horseshoe targets) and the Wiggle Deformation Zone (see Company News Release dated June 28, 2022).

Terms of the Property Acquisition Agreement

Prospector will acquire a 100% interest in the Savant Gold Project from Capella in accordance with the following terms:

1. Prospector to make a cash payment to Capella of CAD 50,000 on closing;
2. Prospector to issue Capella 1,000,000 common shares (with a standard regulatory hold period of 4 months) upon closing; and,
3. Capella to retain a 1% Net Smelter Royalty ("NSR") on any potential future production from the property (with 0.5% being purchasable at any time for CAD 1,000,000).

The Property Acquisition Agreement replaces the existing Earn-In Agreement in its entirety, and closing will be subject to TSX Venture Exchange (and other regulatory) approvals being obtained.

Eric Roth, Capella's President and CEO, commented: "The sale of the Savant Gold Project to our Joint Venture partner Prospector is consistent with our flagged strategy of exiting our precious metals projects in the Americas and focusing on our Scandinavian copper, gold, and battery metal projects. Ultimately, the successful sale of our assets in Canada and Argentina will lead to Capella having a more streamlined portfolio and a more clearly-defined strategy going forward.

Whilst we have relinquished our direct interest in the Savant Gold Project, we strongly believe in the potential for new high-grade gold discoveries on the property and Capella shareholders will retain upside to all future exploration success through both the Prospector shareholding and the NSR from potential future production. I also look forward to keeping the market updated on our divestiture efforts at our Sierra Blanca (Argentina) and Domain (Manitoba) projects".
