

Bronco Resources Corp. Provides Drilling Update

04.12.2024 | [The Newswire](#)

[Bronco Resources Corp.](#) (TSX-V:BRON) ("Bronco" or the "Company") is pleased to provide an update to the 2024 drill program at the Company's Placer Mountain project in Southern BC ("Placer Mountain" or the "Property"). Some 965 meters of drilling have been completed to date in 8 diamond drill holes (Figures 1 & 2). The 2024 drilling program is focused on the large 1.5km by 700m Kodiak Zone gold-in-soil anomaly first discovered in 2021. Core samples from the first 3 holes have been sent to SGS Canada Inc. and results will be provided when received and QAQC has been conducted.

Highlights:

- 965 meters in 8 diamond drill holes have been completed to date.
- Hole KZ-24-09 is currently in progress and is a 200m step out from 2021 drilling (Figures 1 and 2).
- Drilling has been targeting along strike and proximal to the 2021 inaugural drilling and trenching programs (Figures 1 and 2).
- 2021 drilling program returned numerous zones of significant gold mineralization in all holes including intervals of 3.0m of 39.20 g/t Au and 80.40 g/t Ag in KZ-21-05 and 1.4m of 46.51 g/t Au and 32.20 g/t Ag in KZ-21-02
- Kodiak Zone consists of a 1.5km by 700m gold-in-soil anomaly with samples from below detection to 18.1 g/t Au-in-soil including 89 samples greater than 50 ppb Au.
- The 2021 drilling program tested only 150m of the 1.5km of gold-in-soil anomaly strike.

Corbin Stewart, CEO, commented "Our drilling and technical crews have been hard at work successfully and safely conducting the 2024 drilling program to date. We are excited to continue to test the large gold-in-soil anomaly Kodiak Zone first discovered in 2021. We continue to test at depth, along strike, and in potential parallel zones from the initial 2021 discovery holes. The 2024 program has now completed more meterage than the inaugural program. The 2021 program was hampered by severe atmospheric weather conditions making drill moves extremely difficult. This year, below freezing weather at night has enabled us to move the drill and locate it on all planned target zones."

Disclaimer for Forward-Looking Information

This news release contains statements that constitute "forward-looking Information", as such term is used in applicable Canadian securities laws. Such forward-looking information involves known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements, or developments in the industry to differ materially from the anticipated results, performance or achievements expressed or implied by such forward-looking information. Forward-looking information includes statements that are not historical facts and are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "potential" and similar expressions, or that events or conditions "will," "would," "may," "could" or "should" occur.

Although the Company believes the forward-looking information contained in this news release is reasonable based on information available on the date hereof, by its nature forward-looking information involves assumptions and known and unknown risks, uncertainties and other factors which may cause our actual results, level of activity, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information.

Examples of such assumptions, risks and uncertainties include, without limitation, assumptions, risks and uncertainties associated with general economic conditions; adverse industry events; the receipt of required regulatory approvals and the timing of such approvals; that the Company maintains good relationships with the communities in which it operates or proposes to operate, future legislative and regulatory developments in the mining sector; the Company's ability to access sufficient capital from internal and external sources, and/or inability to access sufficient capital on favorable terms; mining industry and markets in Canada and generally; the ability of the Company to implement its business strategies; competition; the risk that any of the assumptions prove not to be valid or reliable, which could result in delays, or cessation in planned work, risks associated with the interpretation of data, the geology, grade and continuity of mineral deposits, the possibility that results will not be consistent with the Company's expectations, as well as other assumptions

risks and uncertainties applicable to mineral exploration and development activities and to the Company, including as set forth in the Company's public disclosure documents filed on the SEDAR website at sedarplus.ca

THE FORWARD-LOOKING INFORMATION CONTAINED IN THIS PRESS RELEASE REPRESENTS THE EXPECTATIONS OF BRONCO AS OF THE DATE OF THIS PRESS RELEASE AND, ACCORDINGLY, IS SUBJECT TO CHANGE AFTER SUCH DATE. READERS SHOULD NOT PLACE UNDUE IMPORTANCE ON FORWARD-LOOKING INFORMATION AND SHOULD NOT RELY UPON THIS INFORMATION AS OF ANY OTHER DATE. WHILE BRONCO MAY ELECT TO, IT DOES NOT UNDERTAKE TO UPDATE THIS INFORMATION AT ANY PARTICULAR TIME EXCEPT AS REQUIRED IN ACCORDANCE WITH APPLICABLE LAWS.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this press release.
