

Zodiac Gold Partners with Karbon-X Corp. to Integrate Carbon Offsets into Exploration Efforts

26.03.2025 | [Newsfile](#)

Vancouver, March 26, 2025 - [Zodiac Gold Inc.](#) (TSXV: ZAU) ("Zodiac Gold" or the "Company"), a West-African gold exploration company, is proud to announce its groundbreaking partnership with Karbon-X Corp. (OTCQB: KARX) ("Karbon-X"), a leading provider of full-spectrum carbon solutions, with the goal to reduce Zodiac Gold's carbon footprint. This initiative marks a major step toward sustainable exploration and mining practices, reinforcing Zodiac Gold's commitment to responsible resource development while preserving the environment.

Through this collaboration, Zodiac Gold will work closely with Karbon-X to measure, reduce, and offset its carbon footprint. By integrating innovative carbon offset strategies, Zodiac Gold aims to lead the way in environmentally responsible resource exploration, with the intention that Liberia benefits from both economic development and environmental stewardship.

"At Zodiac Gold, we recognize that the future of mining must be sustainable. Our pledge to achieve net-zero emissions is about leadership and responsibility," said David Kol, CEO of Zodiac Gold. "This partnership with Karbon-X demonstrates that exploration and sustainability can go hand in hand."

Karbon-X, known for its innovative and practical approach to full-scope carbon solutions, will support Zodiac Gold in quantifying its emissions and offsetting them. With expertise spanning carbon measurement, offset and reduction strategies, and market mechanisms, Karbon-X works with both individuals and industries to make meaningful climate action accessible and impactful. By integrating sustainability from the earliest stages of development, Karbon-X helps Zodiac Gold pursue its district-scale gold exploration near Monrovia with environmental responsibility at its core. Through accurate emissions measurement and high-quality carbon offsets, Karbon-X ensures that tangible climate action is embedded into the foundation of the project.

About Karbon-X

Karbon-X is a pioneering organization providing full-spectrum carbon solutions that empower individuals and businesses to take real, measurable climate action. Whether through emissions tracking, reduction planning, or verified projects, Karbon-X offers accessible tools and services rooted in transparency and impact. Karbon-X's innovative approach to climate action has gained widespread recognition across industries and regions, as it continues to support organizations on their journey toward a more sustainable future.

About Zodiac Gold

Zodiac Gold Inc. (TSXV: ZAU) is a West-African gold exploration company focused on its flagship Todi Project situated in Liberia—an underexplored, politically stable, mining friendly jurisdiction hosting several large-scale gold and iron ore deposits. Strategically positioned along the fertile Todi Shear Zone, Zodiac Gold is developing a district-scale gold opportunity with additional iron ore potential, covering a vast 2,316 km² land package. The Todi gold project has undergone de-risking, showcasing proven gold occurrences at both surface and depth, with five drill-ready targets and high-grade gold intercepts.

Highlights of the project include:

- Located only 13km from the capital city of Monrovia, meaning that the project benefits from existing infrastructure, power, and year-round accessibility.

- District-scale gold exploration potential with proven high-grade mineralization across multiple drill-ready targets along a 20km gold corridor. Strategically located 20km southeast of Avesoro's New Liberty Gold Mine (1.8 Moz. resource) with production of 360Koz in 2024 (<https://avesoro.com/>).
- Drilling highlights from 32 holes at the Arthington target include 6m at 10.6 g/t Au (including 3m at 20.45 g/t Au), 9.65m at 7.5 g/t Au (including 3m at 20.36 g/t Au) and 9.14m at 4.2 g/t Au¹.
- Drilling highlights at the Alasala target include 19.6m at 6.17 g/t Au, 6.0m at 7.69 g/t Au, 9.0m at 4.6 g/t Au and 4.05m at 13.92 g/t Au (including 1.6m at 34.5 g/t Au)^{2,3}.

Forward Looking Information

This news release includes certain "forward-looking statements" within the meaning of Canadian securities legislation.

Forward-looking statements include predictions, projections, and forecasts and are often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "forecast", "expect", "potential", "project", "target", "schedule", "budget" and "intend" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions and includes the negatives thereof. All statements other than statements of historical fact included in this release, including, without limitation, statements regarding the Company's planned exploration programs and drill programs and potential significance of results are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are based on a number of material factors and assumptions. Important factors that could cause actual results to differ materially from Company's expectations include actual exploration results, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital, and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, defects in title, availability of personnel, materials, and equipment on a timely basis, accidents or equipment breakdowns, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Although the Company has attempted to identify important factors that could cause actual actions, events, or results to differ from those described in forward-looking statements, there may be other factors that cause such actions, events, or results to differ materially from those anticipated. There can be no assurance that forward-looking statements will prove to be accurate, and accordingly readers are cautioned not to place undue reliance on forward-looking statements.
