

District Updates on Change of Control, Equity Grant and Proceeds from Warrant Exercises

27.06.2025 | [Newsfile](#)

Vancouver, June 27, 2025 - [District Metals Corp.](#) (TSXV: DMX) (Nasdaq First North: DMXSE SDB) (OTCQB: DMXCF) (FSE: DFPP); ("District" or the "Company") announces the amendment to certain change of control provisions for the CEO and CFO of the Company, equity incentive grants and proceeds received on the exercise of warrants.

Effective June 27, 2025, the Company approved certain amendments to change of control or termination benefits within Garrett Ainsworth's executive employment agreement and Marlis Yassin's executive consulting agreement (each, the "Executive Agreement"). Pursuant to the amendments, if there is a change of control of the Company and the Executive Agreement is terminated by the Company within 12 months of the change of control, the Company will pay the executive two times annual compensation plus two times the average annual bonus paid, if any, during the last two full years of employment immediately upon such termination, and all incentive securities granted to the executive shall immediately vest and be exercisable in accordance with the District Omnibus Incentive Plan. If the executive is otherwise terminated without cause, the Company will pay the executive one times annual compensation plus one times the average annual bonus paid, if any, during the last full year of employment immediately upon such termination, and all incentive securities granted to the executive shall immediately vest and be exercisable in accordance with the District Omnibus Incentive Plan.

The Company also announces that it has granted a total of 3,300,000 incentive stock options to directors, officers and consultants of the Company, 925,000 restricted share units to officers of the Company and 675,000 deferred share units to directors of the Company. Each stock option vests on the grant date and is exercisable to purchase one common share of the Company for five years at a price of \$0.69 per common share (the closing price of the Company's common shares on June 26, 2025, the date prior to the grant date) pursuant to the terms of the Company's Omnibus Incentive Plan. Each restricted share unit and deferred share unit represents a right to acquire one common share of the Company, cash equivalent or combination thereof in accordance with the Company's Omnibus Incentive Plan. The restricted share units and deferred share units vest over three years.

Exercise of Warrants

To date in June 2025, the Company has issued 7,132,500 common shares pursuant to the exercise of warrants, resulting in gross proceeds of \$1,432,250.

Technical Information

About District Metals Corp.

District Metals Corp. is led by industry professionals with a track record of success in the mining industry. The Company's mandate is to seek out, explore, and develop prospective mineral properties through a disciplined science-based approach to create shareholder value and benefit other stakeholders.

District is a polymetallic exploration and development company focused on the Viken and Tomtebo Properties in Sweden. The Viken Property covers 100% of the Viken Energy Metals Deposit, which contains

the largest undeveloped Mineral Resource Estimate ("MRE") of uranium in the world¹ along with significant Mineral Resource Estimates of vanadium, molybdenum, nickel, copper, zinc, and other important and critical raw materials.

For further information on the Viken Property, please see the technical report titled "Updated Mineral Resource Estimate and Technical Report on the Viken Energy Metals Project, Jämtland County, Sweden" dated effective April 25, 2025, which is available under the Company's profile on SEDAR+ at www.sedarplus.ca.

The advanced exploration stage Tomtebo Property is located in the Bergslagen Mining District of south-central Sweden and is situated between the historical Falun Mine and Boliden's Garpenberg Mine that are located 25 km to the northwest and southeast, respectively. Two historic polymetallic mines and numerous polymetallic showings are located on the Tomtebo Property along an approximate 17 km trend that exhibits similar geology, structure, alteration and VMS/SedEx style mineralization as other significant mines within the district.

For further information on the Tomtebo Property, please see the technical report titled "NI 43-101 Update Technical Report on the Tomtebo Project, Bergslagen Region of Sweden" dated effective October 15, 2020 and amended and restated on February 26, 2021, which is available under the Company's profile on SEDAR+ at www.sedarplus.ca.
