

Nuclear Energy Newcomers Electrify Final Day of EnerCom's 30th Anniversary Energy Investment Conference

23.07.2025 | [PR Newswire](#)

Five Nuclear Companies to Present at EnerCom Denver - The Energy Investment Conference

Qualified Investors, Analysts and Energy Industry Professionals Can Register at No Cost at www.enercomdenver.com

DENVER, July 23, 2025 - EnerCom, Inc., a leading energy consulting and strategic communications firm, announces an unprecedented lineup of nuclear energy companies scheduled to present on Wednesday, August 20, the final day of the 2025 EnerCom Denver Conference. The event, now in its 30th year, is the largest independent energy investment conference in the U.S., connecting capital with traditional and emerging energy companies from around the world.

The nuclear company lineup for the conference includes:

Oklo (NYSE: OKLO)

Oklo deploys sodium fast reactors using recycled nuclear waste and down blended fissionable material, or High-Assay, Low-Enriched Uranium fuel to generate electricity. Its commercial Aurora power plant is engineered to produce 75 megawatts. Oklo has a DOE site permit for its first reactor at the Idaho National Labs with plans for commercial operation by 2028. The company's acquisition of Atomic Alchemy also allows Oklo to produce radioisotopes critical for medical and defense applications.

[Energy Fuels](#) (NYSE: UUUU; TSE: EFR)

Denver-based Energy Fuels is a global leader in critical minerals with a 45-year legacy in U.S. uranium mining and production. The company operates three active U.S. mines, including the high-grade Arizona Pinyon Plain mine, and processes ore at its White Mesa Mill in Utah-the only operational conventional uranium mill in the country. The Mill also handles vanadium and is exploring medical isotope extraction for cancer treatment. The company is also processing both light and heavy rare earth elements from U.S.-sourced monazite and developing three global heavy mineral sand mines to produce up to 60,000 tonnes of rare earth feedstock as a by-product of titanium and zircon mining.

Deep Isolation

Deep Isolation is the first company to commercialize nuclear waste disposal in deep boreholes, offering tailored solutions to help countries manage and dispose of waste inventories. With 87 patents, its technology uses proven drilling methods to safely isolate waste underground in horizontal, vertical, or slanted boreholes. The Universal Canister System (UCS), developed through a three-year ARPA-E-funded project, supports integrated management of spent fuel and high-level waste from advanced reactors across storage, transport, and disposal.

Deep Fission

Privately held Deep Fission applies state-of-the-art borehole technology to site Small Modular Reactors one mile underground, an approach that strengthens safety, minimizes construction and operating surface

impacts and costs (e.g. eliminating large containment structures), all while delivering electricity at an estimated 5-7 cents/kWh. With partner Endeavour Energy, Deep Fission's goal is to deliver 2 GW of power for AI-ready data centers by 2029. The company is in the pre-licensing stage with the Nuclear Regulatory Commission.

Solestiss

Solestiss provides strategic advisory services to help clients navigate the evolving energy landscape, supporting decision-making across strategy, market positioning, and operations. As an Energy Developer, Solestiss accelerates access to baseload power while mitigating budget risks by leveraging nuclear and energy infrastructure expertise and natural gas solutions to drive project success.

EnerCom Denver Investor Conference Details

In its 30th year, the conference kicks off with the annual Charity Golf Tournament on Sunday, August 17th at the scenic Arrowhead Golf Club. The golf event is sponsored by global sponsor Netherland, Sewell & Associates and EnerCom. The tournament is a fundraiser for IN! Pathways to Inclusive Higher Education. By participating in the charity golf tournament, requiring a \$150 donation, you directly contribute to creating inclusive college opportunities in Colorado for students with intellectual disabilities and fostering academic growth, social development, and career advancement.

EnerCom Denver also hosts a Monday Mixer cocktail reception after day one of conference presentations, which is sponsored by ATB Capital Markets. This valuable opportunity for attendees to enjoy appetizers, drinks, and live music while networking with other conference participants and key representatives from the energy industry shouldn't be missed.

Casino Night, sponsored by CAC Specialty, follows day two of the conference; experience the entertainment, fun, and excitement of playing in a real casino environment with "funny money" (no cash value, for entertainment only) at the poker, blackjack, roulette, and craps tables manned by professional dealers. This year will also include a charity poker tournament. Join us for a night of revelry, music, good food, and drinks, and it is open to all conference attendees.

Please join us after the conference concludes on Wednesday afternoon with a closing reception as we reflect on the 2025 Conference.

Institutional investors, portfolio managers, family offices, financial analysts, CIOs, and other investment community and industry professionals are encouraged to register now for EnerCom Denver at www.EnerComDenver.com. The conference is free for qualified investment professionals.

Companies interested in presenting can contact Larry Busnardo at lbusnardo@enercominc.com.

Sponsorship opportunities are available by contacting Blanca Andrus at bandrus@enercominc.com.

Conference Overview

Conference Details: EnerCom Denver offers investment professionals a unique opportunity to network and listen to senior management teams from leading companies across the energy value chain update investors on their operational and financial strategies and learn how they create value for stakeholders.

Conference Dates: August 17-20, 2025. EnerCom will host its annual Charity Golf Tournament on Sunday, August 17th at the scenic Arrowhead Golf Club in Littleton, Colorado. Benefitting IN! Pathways to Inclusive Higher Education, the Golf Tournament requires a \$150 charity donation to participate. Formal presentations and meetings will be held Monday, August 18th, through Wednesday, August 20th.

Venue: Westin Denver Downtown. Please book rooms under the EnerCom Denver block. We encourage attendees to book their reservations as soon as possible, as rooms sell out.

Who Attends the Conference: Institutional investors, family offices, high-net-worth investors, private equity, research analysts, retail brokers, trust officers, investment and commercial bankers, and energy industry professionals gather in Denver for the conference.

Conference Format and Details: The EnerCom Denver conference follows EnerCom's familiar 25-minute presentation format, followed by 50-minute Q&A opportunities in separate breakout rooms, one-on-one meetings, and multiple networking opportunities. In addition to in-person access to all company presentations, panel discussions, and keynote speakers, conference registration allows investors and management teams to meet formally and informally over cocktails, breakfast, and lunch.

About EnerCom, Inc.:

Founded in 1994, EnerCom, Inc. has been a trusted advisor to the global energy industry, working with clients to differentiate and deliver targeted messages to investors. Headquartered in Denver, EnerCom is an internationally recognized strategic communications and management consultancy that advises companies on investor relations, corporate strategy/board advisory, fractional/interim CFO advisory services, marketing, financial analysis and valuation, media, branding, and visual communications design.

EnerCom Denver Sponsors Include:

Netherland, Sewell & Associates, Inc. (NSAI)

Netherland, Sewell & Associates, Inc. (NSAI) was founded in 1961 to provide the highest quality engineering and geological consulting to the petroleum industry. Today they are recognized as the worldwide leader of petroleum property analysis to industry and financial organizations, and government agencies. With offices in Dallas and Houston, NSAI provides a complete range of geological, geophysical, petrophysical, and engineering services and has the technical experience and ability to perform these services in any of the onshore and offshore oil and gas producing areas of the world. They provide reserves reports and audits, acquisition and divestiture evaluations, simulation studies, exploration resources assessments, equity determinations, and management and advisory services. netherlandsewell.com

Haynes Boone

Haynes Boone is an energy-focused corporate law firm that provides a full spectrum of legal services and solutions to clients across the energy industry, including the upstream, midstream, and downstream sectors as well as power and renewables. Our team of more than 100 energy lawyers and landmen has been helping operators, lenders, and private equity firms with some of their most complex and significant transactions and disputes in recent years. The firm's nearly 700 lawyers practice across 19 global offices

located in California, Colorado, Illinois, New York, North Carolina, Texas, Virginia, Washington, D.C., London, Mexico City, and Shanghai. The 2023 Chambers USA Legal Guide ranked 31 different firm practice areas, and in 2024, Haynes Boone became the first Am Law 100 firm to ever earn a Gold-level Bell Seal from Mental Health America. The U.S. News & World Report and Best Lawyers "Best Law Firms" 2023 survey ranked Haynes Boone in National Tier 1 in Oil & Gas Law. haynesboone.com

Baker Botts

For over 100 years, Baker Botts has been helping energy clients tackle the toughest of their legal challenges. Our deep bench of experienced transactional, environmental, litigation, regulatory, IP, and tax lawyers has helped companies all across the energy industry. Throughout this time we have served as trusted advisors to companies working in every sector of energy - from oil and gas to conventional and renewable power to renewable fuels to LNG and many other related areas. Much of this work has involved our clients' development and deployment of new energy technologies, which has allowed our lawyers to practice at the cutting edge of every energy "revolution" since the turn of the last century.

Wherever significant energy is produced in the world, Baker Botts lawyers work to advance our clients' objectives in the boardroom, the courtroom, and on-the-ground, drawing upon our deep understanding of the complex legal, technical and policy issues that they face. bakerbotts.com

ATB Capital Markets

ATB Capital Markets offers holistic corporate and capital markets advice, combined with customised financial solutions to help businesses thrive.
