Minaurum Gold Inc. Accelerates Exploration with Mobilization of Additional Drill Rigs at Alamos Silver Project

25.08.2025 | Newsfile

Minaurum Gold Inc. (TSXV: MGG) (OTCQX: MMRGF) ("Minaurum") is pleased to announce that it now has four drill rigs operating as part of its ongoing 10,000-m infill drill program at the Alamos Silver Project, Sonora, Mexico ("Alamos"). To date, over 3,000 meters has been drilled, targeting key zones including Promontorio, Europa-Guadalupe, and Travesia. All drill results will be incorporated into the project's upcoming maiden resource estimate.

"With a robust treasury, the addition of key SilverCrest senior resource development experts, and the discovery of a stacked vein system at Promontorio, we are aggressively advancing exploration and fast-track drilling toward a maiden resource estimate at the Alamos Silver Project," stated Darrell Rader, President & CEO. "We look forward to several project catalysts in the near term including drill results from the infill campaign."

Minaurum approaches drilling at Alamos in a socially and environmentally responsible manner, using mobile, modular, man-portable core-drilling rigs. (Click for Video or visit https://minaurum.com/investors/esg/).

Minaurum Gold Inc. (TSXV: MGG) (OTCQX: MMRGF) (FSE: 78M) is an Americas-focused explorer concentrating on the high-grade 100% owned, production-permitted Alamos silver project in southern Sonora, Mexico and a portfolio of district-scale projects in Mexico. Minaurum is managed by one of the strongest technical and finance teams and will continue its founders' legacy of creating shareholder value by acquiring and developing a pipeline of Tier-One precious-and base metal projects.
