

Olive Resource Capital Announces TSXV Approval of Normal Course Issuer Bid

28.08.2025 | [Newsfile](#)

Toronto, August 28, 2025 - [Olive Resource Capital Inc.](#) (TSXV: OC) ("Olive" or the "Company") announces it has received approval from the TSX Venture Exchange to conduct, at the Company's discretion, a normal course issuer bid program to purchase up to 8,321,280 of its common shares (the "Bid").

The Company is commencing the Bid because it believes that from time to time the market price of its common shares may not fully reflect the underlying value of the Company's business, and that the repurchase of its common shares at those times would be in the best interests of its shareholders.

As of the date hereof, the Company has 106,144,709 common shares issued and outstanding. The maximum number of common shares that may be purchased by the Company under the Bid represents approximately 10% of the Company's "Public Float" (calculated in accordance with the rules of the TSX Venture Exchange (the "TSXV")). The Bid will commence on September 3, 2025, and will terminate on September 2, 2026, or on an earlier date in the event that the maximum number of common shares sought in the Bid has been repurchased. The Company reserves the right to terminate the Bid at any time.

Purchases pursuant to the Bid are expected to be made with existing working capital through the facilities of the TSXV, or by such other permitted means (including through alternative trading systems in Canada), at prevailing market prices or as otherwise permitted.

Any purchases on the TSXV under the Bid will be subject to all limitations as set forth in the TSXV rules. All common shares purchased by Olive under the Bid will be cancelled.

The Company has engaged Canaccord Genuity Corp. to act as the broker through which the Bid will be conducted.

The Company obtained TSXV approval for a previous normal course issuer bid to purchase up to 10,153,620 common shares for the period between January 18, 2024 to January 17, 2025. A total of 3,030,000 common shares were purchased pursuant to the Company's previous normal course issuer bid at a weighted average price of \$0.029 per common share.
