

Lithium Corporation Clarifies Corporate Identity Following Rare Earths Exploration Milestone

07.10.2025 | [ACCESS Newswire](#)

ELKO, October 7, 2025 - [Lithium Corp.](#) (OTCQB:LTUM) ("the Company"), a mineral exploration company committed to advancing North America's energy independence through domestic critical mineral resource exploration and production, today issued a statement to clarify the Company's corporate identity and reinforce its strategic direction following increased investor interest and market activity.

On October 2, 2025, the Company announced the approval and realignment of rare earth elements claims at its Fluorspar exploration property in southern British Columbia, Canada. Fieldwork conducted during the 2024-2025 seasons confirmed enriched concentrations of Neodymium and Dysprosium, essential components in high-efficiency electric motors and renewable energy technologies. The announcement contributed to a surge in LTUM's stock price, reaching a new, short-term high reflecting growing investor confidence in the Company's strategic positioning within the critical minerals sector. However, users tracking Lithium Corp. in social media forums commented on the confusion with companies having similar names and overlapping geographic focus in Nevada. They suggested retail momentum elsewhere may be influenced by superficial name recognition.

"We are aware of recent investor inquiries and commentary related to market confusion around Lithium Corporation and companies with similar names," said Tom Lewis, President & Chief Executive Officer, Lithium Corporation. "Lithium Corporation is headquartered in Elko, Nevada. We operate independently and our focus is on disciplined exploration and long-term value creation through the development of strategic mineral assets." The Company's critical mineral portfolio includes several lithium prospects in Nevada, and a diverse portfolio of titanium, rare earth elements, graphite, fluorspar, and antimony properties in British Columbia, Canada. Lithium Corp. remains committed to transparent communication and encourages investors to consult the Company's official filings and website for verified information and updates.

About Lithium Corporation

Lithium Corporation is a mineral exploration company dedicated to securing North America's energy independence through domestic critical mineral resources. As one of the few Project Generators in North America's critical minerals sector, the Company leverages its extensive exploration expertise to focus on energy metals with the goal of helping achieve energy independence for North America.

The Company's dual operational focus spans two world class mining jurisdictions with promising lithium prospects in Nevada, USA, and a diverse portfolio of titanium, rare earth elements, graphite, fluorspar, and antimony properties in British Columbia, Canada. Lithium Corporation is committed to driving a secure and independent energy future for North America through strategic investments in energy metals exploration and related opportunities, such as renewable energy generation and energy storage solutions.

Notice Regarding Forward-Looking Statements

This current report contains "forward-looking statements," as that term is defined in Section 27A of the United States Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Statements in this press release which are not purely historical are forward-looking statements and include any statements regarding beliefs, plans, expectations or intentions regarding the future.

Actual results could differ from those projected in any forward-looking statements due to numerous factors. Such factors include, among others, the inherent uncertainties associated with mineral exploration and difficulties associated with obtaining financing on acceptable terms. We are not in control of minerals prices and these could vary to make development uneconomic. These forward-looking statements are made as of the date of this news release, and we assume no obligation to update the forward-looking statements, or to update the reasons why actual results could differ from those projected in the forward-looking statements. Although we believe that the beliefs, plans, expectations and intentions contained in this press release are reasonable, there can be no assurance that such beliefs, plans, expectations or intentions will prove to be accurate. Investors should consult all of the information set forth herein and should also refer to the risk factors disclosure outlined in our most recent annual report for our last fiscal year, our quarterly reports, and other periodic reports filed from time-to-time with the Securities and Exchange Commission.
