

# Atico Mining Corp. Reports Consolidated Financial Results for Third Quarter of 2025

18.11.2025 | [Globenewswire Europe](#)

[Atico Mining Corp.](#) (the "Company" or "Atico") (TSX.V: ATY | OTC: ATCMF) today announced its financial results for the three months ended September 30, 2025, posting a net loss of \$4.1 million for the quarter. Production for the quarter at Atico's El Roble mine totaled 2.3 million pounds ("lbs") of copper and 1,847 ounces ("oz") of gold in concentrate at a cash cost <sup>(1)</sup> of \$2.74 per payable pound of copper <sup>(2)</sup>.

Fernando E. Ganoza, CEO and Director, stated: "Third-quarter results were impacted by a delayed arrival of the shipping vessel to the port in Colombia, which left all concentrate in inventory as of September 30, 2025, thus pushing sales into the subsequent period. The sale of said concentrate occurred in October and will be recognized in Q4-2025 in addition to our Q4 production shipment. During the third quarter and up to the date of this release, Atico reduced its credit facilities, loans, and payments due to the National Mining Agency by \$5.4 million." Mr. Ganoza continued, "Higher metal prices during the quarter allowed us to mine from the lower zones of the El Roble mine not previously in reserves, these areas of the deposit are in the final months and are being prioritized to maximize overall ore recovery. This process offset higher-grade gains, from the upper zones, as development has steadily increased feed from the said zones. We expect further gradual improvement in production next quarter due to higher copper grades, as our mine plan continues to increase feed from the upper higher-grade zones."

## *Third Quarter Financial Highlights*

- In Q3-2025, a shipping delay in Colombia prevented the Company from completing its concentrate shipment, leaving the product in inventory as of September 30, 2025. The concentrate was sold in October (Q4-2025) once revenue recognition criteria were met. The Company also posted a \$1.3 million downward adjustment to provisional pricing, based on updated gold assay results for the Q2-2025 shipment. In Q3-2024, sales totaled \$24.6 million with 11,936 dry metric tonnes sold.
- Due to there being no metals concentrate sold during in Q3-2025, loss from operations was \$2.6 million (Q3-2024 - \$4.2 million income), while cash outflows from operations, before changes in working capital, was \$1.8 million (Q3-2024 - \$8.1 million cash inflows) <sup>(1)</sup>. Cash used for capital expenditures amounted to \$2.9 million (Q3-2024 - \$2.1 million).
- Net loss for the quarter was \$4.1 million, compared with \$1.2 million net income for Q3-2024.
- The working capital deficit (current assets minus current liabilities) was \$13.5 million at September 30, 2025 (December 31, 2024 - \$11.3 million). During the quarter, the Company received advance payments of \$10.5 million from its customer on inventory, recorded as deferred revenue, which contributed to this deficit. These advances were settled in October 2025 through the sale and delivery of the concentrate to the customer.
- During the quarter the Company repaid \$2.7 million of loan payables and the Company ended the quarter with \$6.0 million (December 31, 2024 - \$7.0 million) in long-term loans payable and \$4.7 million (December 31, 2024 - \$8.5 million) in long-term arbitration award payable included in other liabilities.
- Cash costs were \$179.23 per tonne of processed ore <sup>(1)</sup> (up 23% from Q3-2024 - \$145.34) and \$2.74 per pound of payable copper produced <sup>(1)</sup> <sup>(2)</sup> (up 12% from Q3-2024 - \$2.44). The increase in cash cost per tonne was mainly due to reduced ore extraction in Q3-2025, leading to underused processing capacity, more infill drilling for mine planning, increased costs of preparations and ground support from the transition to the new upper zones of the El Roble mine, and higher costs from unfavorable foreign exchange and inflation. Cash costs per pound of payable copper produced (net of by-product credits) also increased due to lower copper output due to the lower copper grade. The Company expects a gradual improvement in tonnage and grade in the next quarter as more ore mined from the new upper zones, which contain higher grades, is added to the mine plan.

- All-in sustaining cash cost per payable pound of copper produced was \$4.87 <sup>(1)</sup> <sup>(2)</sup> which was up from \$3.60 in Q3-2024. This increase was primarily due to higher sustaining capital expenditures on mine development and mine infrastructure to expand ore extraction from the new upper zones which contain higher grade. Additionally, civil works were undertaken to construct a roofed tailings cover structure to support dry-stack tailings management.
- On July 22, 2025, the Company announced the closing of a rights offering (the "Rights Offering"). Pursuant to the Rights Offering, 29,887,022 right units ("Rights Unit") of the Company were issued at the subscription price of CAD\$0.11 per unit for gross proceeds of CAD\$3,287,572. Each Rights Unit consisted of one common share of the Company (a "Common Share") and one transferable Common Share purchase warrant (a "Rights Warrant"), with each Rights Warrant exercisable into one Common Share (a "Rights Warrant Share") at a price of CAD\$0.18 per Rights Warrant Share for a period of two years from the issue date.
- On July 28, 2025, the Company announced the closing of a fully subscribed offering under the listed issuer financing exemption (the "LIFE offering"). Under the LIFE Offering, the Company sold 29,090,910 units of the Company, at a subscription price of CAD\$0.11 per unit for gross proceeds of CAD\$3,200,000. Each LIFE Unit consisted of one common share of the Company and one transferable Common Share purchase warrant (a "LIFE Warrant"), with each LIFE Warrant exercisable into one Common Share (a "LIFE Warrant Share") at a price of CAD\$0.18 per LIFE Warrant Share for a period of two years from the issue date.
- On November 4, 2025, the Company paid \$2.1 million plus interest of \$0.3 million (COP\$10 billion) of the arbitration award payable pursuant to the Payment plan with the National Mining Agency.
