

Global Uranium Corp. Announces Strategic Expansion of Airline Project Claims in Wyoming

26.11.2025 | [GlobeNewswire](#)

[Global Uranium Corp.](#) (CSE: GURN | OTC: GURFF | FRA: Q3J) (the "Company") is pleased to announce that it has expanded its land position at the Airline Project, located within the Copper Mountain uranium district of Wyoming. The new claims (Figure 1) were staked by Big Rock Exploration and cover public lands administered by the U.S. Bureau of Land Management ("BLM"). The Company notes that formal registration of the claims into the Company's name remains subject to approval by the BLM.

The core Airline Project originally consisted of a single BLM claim block totaling approximately 60 hectares, complemented by a 258-hectare Wyoming State Mineral Lease situated approximately 4 kilometres away. Together, these two components formed the basis of the Company's initial land position in the district.

Global Uranium has now expanded the BLM claim block through three new additions by way of staking, including a 7-hectare expansion to the north, a 205-hectare expansion to the west, and a 134-hectare expansion to the east. These newly staked parcels increase the overall Airline project area to approximately 664 hectares. The expanded footprint provides a more complete land position across favourable geological trends, supporting the Company's long-term exploration strategy.

"Expanding the Airline Project is an important step in strengthening our position in the Copper Mountain district," commented Ungad Chadda, CEO of Global Uranium. "Securing a larger, continuous land package positions us well as we evaluate the district's prospective geological trends and advance our exploration plans."

Figure 1. Map of the Airline Project. The original 60-hectare BLM claim block is located to the right, with three newly staked expansions to the north (7 ha), west (205 ha), and east (134 ha). The existing 258 ha Wyoming State Mineral Lease is situated 4.2 kilometres west-northwest of the original BLM claim block.

Additional Information About BLM Claims

The newly staked claims are subject to standard BLM processing and final approval.

QUALIFIED PERSON

Jared Suchan, Ph.D., P.Geo., Global Uranium's Vice President of Exploration, and a "Qualified Person" under National Instrument 43-101, has reviewed and approved the scientific and technical contents of this news release.

For a discussion of the Company's QA/QC and data verification procedures and processes, please see its technical report entitled, "NI 43-101 on the Northwest Athabasca Project Northern Saskatchewan Centered at: Latitude 59°24'00" N, Longitude 109°54'00" W", a copy of which may be obtained under the Company's profile at www.sedarplus.ca.

About Global Uranium Corp.

Global Uranium Corp. focuses on exploring and developing uranium assets primarily in North America. The Company currently holds key uranium projects: the Wing Lake Property in the Mudjatik Domain of Northern

Saskatchewan, Canada; the Northwest Athabasca Joint Venture with [Forum Energy Metals Corp.](#) and [NexGen Energy Ltd.](#) in the Northwest Athabasca region of Saskatchewan, Canada; and the Great Divide Basin District Projects, the Gas Hills District Projects, and the Copper Mountain District Projects in Wyoming, USA.

Forward-Looking Statements

Certain statements contained in this press release constitute forward-looking information. These statements relate to future events or future performance. The use of any of the words "could", "intend", "expect", "believe", "will", "projected", "estimated" and similar expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on the Company's current belief or assumptions as to the outcome and timing of such future events. In particular, this press release contains forward-looking information relating to, among other things, exploration efforts on the Project, and BLM's approval process with respect to the new claims.

Although forward-looking information is based on the reasonable assumptions of the Company's management, there can be no assurance that any forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include the risk that exploration of the Project may not continue, whether as a result of a lack of financial resources, a failure to receive the requisite permits or approvals, including BLM approval; the risk that exploration of the Project will not progress as currently contemplated and, that, even if exploration does proceed as anticipated, such exploration activities may not achieve their anticipated outcomes; risks inherent in the exploration and development of mineral projects, including risks relating to receiving requisite permits and approvals, changes in project parameters or delays as plans continue to be redefined, that mineral exploration is inherently uncertain and that the results of mineral exploration may not be indicative of the actual geology or mineralization of a project; the risk that mineral exploration may be unsuccessful or fail to achieve the results anticipated by the Company; risks related to joint ventures and the other risks and factors identified by the Company in its continuous disclosure filings, filed on the Company's SEDAR+ profile at www.sedarplus.ca.

The forward-looking information contained in this release is made as of the date hereof, and the Company is not obligated to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information contained herein.

The Canadian Securities Exchange has not reviewed, approved, or disapproved the contents of this press release.
