MELBOURNE, AUSTRALIA -- (Marketwire - Nov. 22, 2012) - [Ivanhoe Australia Limited](#) (TSX:IVA) (ASX:IVA) ("Ivanhoe Australia" or the "Company") is pleased to announce the completion of the institutional component of its accelerated non-renounceable entitlement offer ("Entitlement Offer") which was announced on 21 November 2012.

Under the Entitlement Offer, eligible shareholders are invited to participate pro-rata to their existing holdings by subscribing for 3 new Ivanhoe Australia ordinary shares ("New Shares") for every 10 existing Ivanhoe Australia ordinary shares, at a price of A\$0.48 ("Offer Price") per New Share, to raise up to A\$80 million.

The institutional component of the Entitlement Offer ("Institutional Entitlement Offer") raised gross proceeds of approximately A\$75 million at the Offer Price, receiving strong support from existing institutional shareholders and a number of new institutional investors who Ivanhoe Australia is pleased to welcome onto the register. Eligible institutional shareholders subscribed for approximately 80% of their entitlements under the Institutional Entitlement Offer.

Ivanhoe Australia's Chief Executive Officer, Inés Scotland said, "The success of the institutional component of the Entitlement Offer demonstrates the strong support that Ivanhoe Australia enjoys from its major shareholders. The proceeds will ensure the Company has an appropriate capital structure, which, combined with a disciplined approach to costs, will enable us to continue successfully operating the Osborne copper-gold business and maintaining the Company's significant exploration program over our tenements in the Mount Isa region."

New Shares issued pursuant to the Institutional Entitlement Offer will rank equally with existing Ivanhoe Australia ordinary shares. Settlement of the Institutional Entitlement Offer is scheduled for 29 November 2012. The New Shares offered under the Institutional Entitlement Offer are expected to be issued, and to commence trading on the Australian Securities Exchange ("ASX"), on 30 November 2012.

Ivanhoe Australia's shares are expected to resume trading on the ASX today.

Investors should note that it is a requirement of the ASX listing rules that the reporting of ore reserves and mineral resources in Australia comply with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the "JORC Code"), whereas mining companies in other countries may be required to report their mineral reserves and/or resources in accordance with other guidelines (for example, U.S. Securities and Exchange Commission ("SEC") Industry Guide 7 in the United States). Investors should note that while the Company's reserve and mineral resource estimates comply with the JORC Code, they may not comply with the relevant guidelines in other countries, and do not comply with SEC Industry Guide 7. For example, the reporting regime in the United States under the SEC Industry Guide 7 prohibits the reporting of estimates other than proven or probable reserves. While under the JORC Code, the Company has reported 'indicated' and 'inferred' resources, under the U.S. reporting regime the Company would be unable to report these resources. Investors should not assume that quantities reported as "resources" will be converted to reserves under the JORC Code or any other reporting regime.
