OVERVIEW

<u>Intrepid Mines Ltd.</u>'s ('Intrepid' or the 'Company') principal activities for the quarter under review was the review of the optimal mechanism for a return of cash and this included consideration of potential costs, taxation effectiveness and timing issues for shareholders.

This review identified <u>Blackthorn Resources Ltd.</u> ('Blackthorn') as a potential merger partner, and culminated in the announcement of an agreement for the Company to merge with Blackthorn by way of a scheme of arrangement, and to undertake a share buy-back.

CORPORATE

On 19 February 2014, the Company announced that it had signed agreements to settle all disputes surrounding the ownership of the Project, which would result in the Company receiving a consideration of \$80.0 million in cash. At the Extraordinary General Meeting of the members of the Company held on 9 April 2014, shareholders voted overwhelmingly in support of the resolution to approve the settlement agreements. The Company received the settlement proceeds of \$80.0 million in cash on 10 April 2014.

On 13 March 2014, the Company received a notice under Section 249D of the Corporations Act 2001 (Cth) ('Corporations Act') from shareholders Quantum Pacific Investment Limited ('Quantum') and Fides Capital Partners Limited, who together held approximately 5.67% of the Company's issued capital, requesting that the Company hold a general meeting of shareholders to consider resolutions to remove five existing directors and appoint three new directors. This meeting was held on 13 May 2014.

Also on 13 March 2014, the Company received a second notice under Section 249D of the Act from the same shareholders, requesting that the Company hold a further general meeting of shareholders to consider resolutions to effect a return of capital to shareholders or a share buyback. The resolution, as framed, did not take into account all potential outstanding and contingent liabilities which would have to be addressed prior to returning all capital to shareholders, and accordingly,

directors were unable to accede to the request to call this meeting.

Directors advised that, by no later than the Annual General Meeting ('AGM'), the Company would put forward for a shareholder vote a resolution that provided for a cash return to shareholders of net excess capital. Directors confirmed that the Company would not make any project acquisition or investment prior to the AGM without shareholder approval. Directors also advised that, should an outstanding investment opportunity arise in the interim, the Board may decide to put such an opportunity to a shareholder vote as an alternative to the proposed cash return.

Shareholder Quantum issued the Company with a notice under which it nominated three persons as candidates for election as directors of the Company at the AGM to be held on 30 May 2014.

At the Extraordinary General Meeting ('EGM') on 13 May 2014, the shareholders of the Company voted to replace existing directors Messrs Jackson, Curtis and McDonald with new directors Messrs Mazur, Sanderson and Lim.

On 19 May 2014, the Company issued a revised Notice of Meeting for the AGM, which incorporated technical amendments to reflect the vote at the EGM on 13 May 2014 and to change the directors' recommendation on the resolution for a return of capital, to recommend that shareholders vote in favour of the resolution. At the AGM on 30 May 2014, shareholders voted against the return of capital resolution, which required a majority of 75% of the votes cast in order to be passed, but passed all other resolutions.

Intrepid announced that the Company had been notified by the Toronto Stock Exchange of its intention to delist Intrepid securities effective at the close of market on 3 July 2014, if the Company was unable to comply with ongoing listing requirements of that exchange.

On 28 August 2014, the Company announced an agreement to merge by way of a scheme of arrangement with Blackthorn ('the Merger'). The Merger would create a well-funded copper company in a strong position to realise the potential of the Kitumba Copper Project and add value to the broader Mumbwa Project licence areas in Zambia (the Merged Group).

Intrepid shareholders will also be given the opportunity to participate in a A\$110 million⁽¹⁾ equal access share buy-back from Intrepid's cash holdings, to be completed once the Merger is effective (the 'Intrepid Buyback'). Intrepid considers that the level of the proposed buy-back appropriately balances the funding requirements of the Merged Group with the stated desire of a number of Intrepid shareholders to receive a return of capital.

BUSINESS DEVELOPMENT

A short list of operating, development and advanced exploration projects for potential investment was created.

Detailed evaluation and due diligence, including site visits to several mineral projects have been completed. The evaluation process led to the announcement of the Merger.
