The Lac Villebon Gold project covers an area of approximately 855 hectares on the western shore of Lac Villebon, and the Project's mineral claims are contiguous with the southern border of Alexandria Minerals' Cadillac Break Property Group. The Lac Villebon Gold Project is also ~18km southeast of Agnico Eagle Mines Limited's Akasaba West Mine, which was acquired from Alexandria Minerals Corporation in 2014 and hosts an indicated gold resource* of approximately 200,000 oz Au. Other active companies in the immediate area include Glencore (GLNCY), 1.5km to the south, and [Monarques Gold Corp.](#) (MQR-V) and [Cartier Resources Inc.](#) (ECR-V) to the northeast. The project is easily accessible year-round by the Trans-Canada Highway and is a 40 minute drive from the city of Val-d'Or.

*These estimates of gold production and resources are sourced from publically available materials from other companies active in the Val' d'Or Mining Camp and are not located on the Lac Villebon Property. Aldever has not undertaken any independent investigation of the production/resource estimates nor has independently analyzed the publically available results.

Under the terms of the agreement, Aldever can earn 100% interest in the project by issuing 2,000,000 common shares within 5 days of TSX Venture Exchange approval and incurring \$2,000,000 in qualifying exploration expenditures over a five year period. A 1% GOR (Gross Overriding Royalty) has been granted to the vendor, of which 0.5% may be purchased by Aldever for \$1,000,000. All shares issued are subject to a statutory hold period of four months plus a day from the respective date of issuance, in accordance with applicable securities legislation.
