

Uptick Newswire "Stock Day" Interviews CEO of Aben Resources on 2017 and 2018 Mining Projects

12.12.2017 | [GlobeNewswire](#)

Phoenix, AZ, Dec. 12, 2017 - Uptick Newswire is the sole producer of the Uptick Network “Stock Day” Podcast and after airing back in January 2016 CEO and host Everett Jolly has interviewed hundreds of CEO’s within the micro-cap publicly traded sector of the market bringing important updates to the investor community. Aben Resources CEO had joined Stock Day back in May of 2017 interviewing on the Company’s projects for the year. Now Everett Jolly invites the Company’s CEO back on Stock Day to give an end of the year update and to elaborate on next year’s projects.

Stock Day welcomes back James G. Pettit, CEO and President of [Aben Resources Ltd.](#) (TSX-V:ABN) (OTCBB:ABNAF) (the “Company”) and he elaborates on the Company’s 3 advanced stage gold projects and additional projects for the New Year that Aben Resources looks to be expanding on. Mr. Jolly asks an important question, that many listeners want an end of the year update, “What were your objectivities this year for the Forrest Kerr project? And if you could bring your shareholders and my listeners up to speed on what you have achieved up there this year.” To answer that question Mr. Pettit gives a powerful explanation on the priority projects and the spectacular outcomes of the mineralized zones within the Forrest Kerr Project that will be continued on in 2018. Continuing the interview, Mr. Jolly has always had an interest in the Gold and Silver Summit in San Francisco and while the Company attended the spectacular event this year Mr. Pettit had nothing but great comments about this year event. Now that the season is over Mr. Pettit touches upon what the Company will be conducting in the Chico Project and how additional projects are looking moving forward in the drilling process through the end of the year into 2018.

In closing CEO James G. Pettit states, “Well I would look at our Company as very undervalued based on our asset based and it’s undervalued for a couple of reasons. Right now its tax loss selling in Canada and that will be over on the 15th of December. You do get a lot of selling to cover the tax loss. We will do some financing towards this side of the year or right after the end of the year there’s a lot available because once tax loss is over the stocks do respond and start to move up.”
