Lake Winn Resources Corp. Commences Drilling, for 2021 on the Cloud, Gold Project

13.01.2021 | The Newswire

Lake Winn Resources Corp. (“Lake Winn” or the “Company”) (TSXV:LWR) (OTC:EQTXF) is has commenced its 2021 drill program on the Cloud project, in the Flin Flon gold belt, Manitoba. This is the continuation of the 406m in two holes drilled on the project in 2020.

The first drill hole CP-2021-01 is targeting the eastern portion of the Bachnick Gold zone. The previous two holes drilled in 2020 targeted the western portion of the Bachnick zone, CP-2020-01, and IP chargeability high, CP-2020-02. Both of these holes have been sampled and the samples have been delivered to the laboratory for assay.

Drill hole CP-2020-01 has been sampled at 1 meter intervals for the entire hole and samples are being sent to the TSL labs in Saskatoon, Saskatchewan for assaying.

Figure 1 shows the location of these drill holes and table one gives location and orientation information for each hole.

Lake Winn plans at to complete a minimum 2000m program on the Cloud project testing the Bachnick Gold Zone and associated geophysical targets with the option to expand to follow-up encouraging results.
