

Skyharbour Resources Receives \$585,000 from Warrant and Option Exercises

16.09.2021 | [GlobeNewswire](#)

VANCOUVER, Sept. 15, 2021 - [Skyharbour Resources Ltd.](#) (TSX-V: SYH) (OTCQB: SYHBF) (Frankfurt: SC1P) (the "Company") is pleased to announce it has received an aggregate CAD \$584,995 from the exercise of share purchase warrants and stock options since its news release dated August 11th, 2021. A total of 2,191,111 warrants and stock options have been exercised with a batch of options expiring on Sept. 29th.

The Company has also entered into an agreement with Think Inc. to provide strategic digital media and consulting services to the Company. Think Inc. delivers services to a diverse group of clients across North America, providing strategic digital media services, marketing and data analytic services. The Company and Think Inc. act at arm's length. Under the terms of the agreement, Think Inc. will provide strategic digital media services including marketing services, news dissemination, data analytics services, content development, media buying and distribution, campaign reporting and optimization, as well as potentially attracting option / joint venture partners for business opportunities. The Company has agreed to pay Think Inc. a total initial cost of USD \$300,000 over an expected 6-month period.

About Skyharbour Resources Ltd.:

Skyharbour holds an extensive portfolio of uranium exploration projects in Canada's Athabasca Basin and is well positioned to benefit from improving uranium market fundamentals with six drill-ready projects covering over 250,000 hectares of land. Skyharbour has acquired from Denison Mines, a large strategic shareholder of the Company, a 100% interest in the Moore Uranium Project which is located 15 kilometres east of Denison's Wheeler River project and 39 kilometres south of Cameco's McArthur River uranium mine. Moore is an advanced stage uranium exploration property with high grade uranium mineralization at the Maverick Zone that returned drill results of up to 6.0% U₃O₈ over 5.9 metres including 20.8% U₃O₈ over 1.5 metres at a vertical depth of 265 metres. The Company is actively advancing the project through drill programs.

Skyharbour has a joint-venture with industry-leader Orano Canada Inc. at the Preston Project whereby Orano has earned a 51% interest in the project through exploration expenditures and cash payments. Skyharbour now owns a 24.5% interest in the Project. Skyharbour also has a joint-venture with Azincourt Energy at the East Preston Project whereby Azincourt has earned a 70% interest in the project through exploration expenditures, cash payments and share issuance. Skyharbour now owns a 15% interest in the Project. Preston and East Preston are large, geologically prospective properties proximal to Fission Uranium's Triple R deposit as well as NexGen Energy's Arrow deposit.

The Company also owns a 100% interest in the South Falcon Uranium Project on the eastern perimeter of the Basin, which contains a NI 43-101 inferred resource totaling 7.0 million pounds of U₃O₈ at 0.03% and 5.3 million pounds of ThO₂ at 0.023%. Skyharbour has signed a Definitive Agreement with ASX-listed Valor Resources on the Hooke Lake (previously North Falcon Point) Uranium Project whereby Valor can earn-in 80% of the project through \$3,500,000 in total exploration expenditures, \$475,000 in total cash payments over three years and an initial share issuance.

Skyharbour's goal is to maximize shareholder value through new mineral discoveries, committed long-term partnerships, and the advancement of exploration projects in geopolitically favourable jurisdictions.
