

FPX Nickel Appoints Market Maker

01.03.2024 | [CNW](#)

VANCOUVER, March 1, 2024 - [FPX Nickel Corp.](#) (TSXV: FPX) (OTCQB: FPOCF) ("FPX" or the "Company") is pleased to announce that it has retained PI Financial Corp. ("PI") to provide market-making services in accordance with the TSX Venture Exchange ("TSX-V") Policies.

PI, an investment dealer located in Vancouver, British Columbia, will trade the securities of FPX on the TSX-V, adhering to regulatory exchange policies to maintain a reasonable, fair market and to enhance the liquidity of the Company's shares ("Market Making Services"). In consideration of the Market Making Services, the Company will pay PI a monthly fee of \$5,000 for a minimum term of three months. After three months, the agreement with PI may be terminated by the Company at any time upon 30 days' written notice. FPX and PI are unrelated and unaffiliated entities. PI will not receive shares or options as compensation and the capital used for market-making will be provided by PI.

About the Decar Nickel District

The Company's Decar Nickel District represents a large-scale greenfield discovery of nickel mineralization in the form of a naturally occurring nickel-iron mineral called awaruite (Ni₃Fe) hosted in an ultramafic/ophiolite complex. FPX's mineral claims cover an area of 245 km² west of the Middle River and north of Trembleur Lake, in central British Columbia. Awaruite mineralization has been identified in several target areas within the ophiolite complex including the Baptiste Deposit and the Van Target, as confirmed by drilling, petrographic examination, electron probe analyses and outcrop sampling. Since 2010, approximately US \$30 million has been spent on the exploration and development of Decar.

Of the four targets in the Decar Nickel District, the Baptiste Deposit has been the focus of increasing resource definition (a total of 99 holes and 33,700 m of drilling completed), as well as environmental and engineering studies to evaluate its potential as a bulk-tonnage open pit mining project. The Baptiste Deposit is located within the Baptiste Creek watershed, on the traditional and unceded territories of Tl'azt'en Nation and Binche Whut'en, and within several Tl'azt'enne and Binche Whut'enne keyohs. FPX has conducted mineral exploration activities to date subject to the conditions of agreements with First Nations and keyoh holders.

About FPX Nickel Corp.

[FPX Nickel Corp.](#) is focused on the exploration and development of the Decar Nickel District, located in central British Columbia, and other occurrences of the same unique style of naturally occurring nickel-iron alloy mineralization known as awaruite. Forward-Looking Statements

Certain of the statements made and information contained herein is considered "forward-looking information" within the meaning of applicable Canadian securities laws. These statements address future events and conditions and so involve inherent risks and uncertainties, as disclosed in the Company's periodic filings with Canadian securities regulators. Actual results could differ materially from those currently projected by management at the time of writing due to many factors the majority of which are beyond the control of FPX and its management. In particular, this news release contains forward-looking statements pertaining, directly or indirectly, to the following: the duration of the Marketing Making Services and the frequency of any trades in connection with the Market Making Services. These statements speak only as of the date of this release or as of the date specified in the documents accompanying this release, as the case may be. The Company does not assume the obligation to update any forward-looking statement except as expressly required by applicable securities law.

Neither the TSX Venture Exchange nor its Regulation Services Provider accepts responsibility for the adequacy or accuracy of this release.
