Prior to being appointed as Interim CEO, Ms. More, served as the Company's Chief Operating Officer. She is a seasoned operations executive, with over 12 years of experience. Ms. More excels in operations, business expansion, and investor relationship management. On March 27, 2024, OTC Markets labeled the Company with a Caveat Emptor designation. We have not received any information from OTC Markets regarding their reasons for imposing the CE designation and have requested more information from them.

Additionally, we have provided OTC Markets with the audited financial statements of Xyberdata as there is misinformation being circulated about the Xyberdata's holdings of BTC and its valuation. Xyberdata is a Mauritius corporation and financial statements from places other than Mauritius do not represent its actual financial status. The audited financial statements indicate that Xyberdata holds more than a sufficient number of BTC to satisfy the terms of the letter of intent between the parties. These financial statements have been provided to OTC Markets.

The Company wants to reiterate that no officers or directors of the Company have sold any shares and that any alleged comments regarding this transaction made by the Company's former CEO were not made on behalf of the Company and don't represent the views of management.

Nilam Resources is diligently working with OTC Markets to resolve the Caveat Emptor designation as quickly as possible.
